This book does not contain very important pictures such as the straw house, the wolf puffing...etc I recommend it to collectors, because is a very interesting book, but if you are a teacher, and you need it for working, this is not the correct book...

I am a HUGE fan of Golden Books. They are so nostalgic and I can remember my Grandpa reading them to me when I was a child. I ordered this book for my sisters "Books" Baby shower theme to set out next to the pig in the blankets. It did a great job at serving its purpose. I even heard many people reminisce and discuss the Golden Books they had when they were children. However, like other

stated the illustrations aren't that great, but it is still a good story.

Little Golden Books bring great stories to children of every generation. I ordered this book as a baby shower gift but I remember reading this to my son and every week when we went to the grocery store we bought a new Little Golden Book to read at bed time. I really love these books, all of them are great!

An absolutely charming book, based on the classic Disney cartoon. It's a joy to read this to my daughter.

Read this to my toddler. I do not remember it this way, but that was a long time ago. Great sturdy cover. No problems with the pages turning.

Love it! Love it! This is my favorite "Little Pigs" publication. So glad it's still in print!

One of my favorites. I got to read this to my daughter after the old book was missing pages. Hopefully she will love it too.

I remember this exact book from when I was young. Can't wait to share with my son.
