Northwest Gardener's Handbook: Your Complete Guide: Select, Plan, Plant, Maintain, Problem-Solve - Oregon, Washington, Northern California, British Columbia

Synopsis

The complete guide to select, plan, plant, maintain, and problem-solve for gardeners living in the Northwest (including Oregon, Washington, northern California and British Columbia). The Northwest Gardener's Handbook is filled with all the need-to-know information to make your Northwestern garden a success. This book is the when-to, how-to, and what-to of gardening for the more experienced gardener. "When to" information assists gardeners with the proper care and timing for everything from planting to watering. "How to" gives you the best methods needed for your garden. "What-to" covers the climate and topography of the region and the best way to manage and choose annuals, perennials, bulbs, edibles, groundcover, roses, shrubs, trees, vines, native plants and many more types of plants and situations. A section devoted to water-wise gardening offers insight into a key component of every garden which is especially in this region. Save water, money and time with Pat's tips! Gorgeous, full-color photographs provide at-a-glance information on the best plants to use in any situation. Create the best garden possible, using information designed for your specific needs. Whether you're designing a garden from scratch or maintaining one that you've had for years, this is the book for you!

Customer Reviews

"Ideal for new gardeners, or those new to gardening in our climate; the "Garden Know-How" section alone could launch someone on their way to a satisfying experience." - Seattle Times

256-page trove is brimming with 384 gorgeous color photographs and information detailing the various regions in the Northwest. It contains the most clear description of the various microclimates I've ever read - temperature ranges, precipitation totals, variations in soil geology." - Oregonian.com

Pat Munts (Spokane, WA) is the small farm and acreage coordinator for WSU Spokane County Extension and the Spokane Conservation District, and advises small farm producers and landowners on how to manage their land, crops, animals and businesses. She also serves as a regional director for the Garden Writers Association. As a freelance garden writer, Pat has shared her gardening experiences and knowledge as a freelance columnist for the Pacific Northwest Inlander, The Spokesman-Review's "Voices" column, and as the eastern Washington editor of Master Gardener magazine. On the national level, Pat has written for GreenPrints and The American Gardener, and she is the author of Cool Springs Press's Northwest Gardener's Handbook (2014). Pat and her husband Steven still garden on their Spokane Valley property.

Sue Mulvihill (Spokane, WA) Susan Mulvihill is a garden columnist, Master Gardener and author of the blog, "Susan's in the Garden." In 1978, she and her husband, Bill, moved to Spokane, Washington, where they live on five acres. While there's plenty of room to grow a wide variety of edibles, perennials and other ornamentals, Susan's biggest challenge was learning what would grow in her new surroundings. Susan is known for her down-to-earth approach to teaching and writing that appeals to beginning and experienced gardeners alike. Her humor and enthusiasm for gardening have gained her a wide following over the years. Her blog can be found at susansinthegarden.blogspot.com.

I'm not a gardener, so I need all the help I can get. This book is a great help for the non-green thumpers.

Great book to have on hand

Great book.

This is now my go-to book for gardening here in the Pacific Northwest. It's well laid-out and easy to find information on everything you would expect, from annuals, perennials, trees and shrubs. I do with it included information on pest control and diagnosing problems on plants in our area.

Beautifully crafted book that every Northwest gardener should have on his or her shelf! The photography illustrating shrubs, plants, and flowers is excellent, and the writing is clear, easy to read and understand, and it's also friendly and warm - as if you and a friend are walking through the garden and you're getting the best possible advice on what, how, and when to plant. Author Pat Munts is a well-known garden and plant expert with decades of experience in the Pacific Northwest and a trusted resource when it comes to this topic. And if you don't personally need this book (and you do need this book if you have any type of yard!), it's perfect as a gift for someone who does.

Good information but I feel some details were too brief in order to manage the size of the book. The details are accurate and well written. Good illustrations and I feel this is a good reference for any gardener.

Great detail and pictures

Great info. Great pictures. So much better than the recent Sunset Western Garden Book.
