Always an excellent option for my 5 years old son, it maintains him engaged and busy when we go to the restaurant (I buy them always for that), this is like the number 10 that I buy. I used to buy them at Cracked Barrel but they don't sell them anymore, so saved me with this one too. I have to buy them in bulks lol the good thing is that there are different subjects for this purse, pocket littler

entertainers, I use them for plane trips, road trip and even as goodies for parties could be a great option.

I bought this for my kids to play with while we were waiting in line at Disneyland. It was a hit. I recommend these stickers because kids LOVE stickers and you can easily reuse these in the book over and over again. Since Disneyland, I have also used these at restaurants and in long car rides. I would definitely buy these again.

I bought this to throw into my diaper bag while traveling with my train-obsessed 2.5 year old. I figured this book would be fun for him when I needed an easy-to-carry distraction. I wound up pulling it out once, when my husband and I were trying to eat but our son was totally uninterested in the meal. I thought it might keep him occupied long enough for us to finish our food. It helped a bit, but to be honest, it didn't keep his interest very long, and he didn't enjoy it as much as I'd hoped. Here's a breakdown of the good and the bad: First of all, they really mean the "little" in Dover Little Activity Book brand name - the book is a bit smaller than a 4x6 photo. It's made up of a cute little train tracks/train station/countryside sort of background scene spanning the inside of the covers, and a couple of pages of removable, reusable train, car, and people stickers that can be placed on the background pages to fill in the scene. The stickers are indeed removable and reusable (though they can tear when handled by a not-entirely-gentle toddler). There are plenty of stickers to keep a little one interested. However, because the book was so small, there's really only room for a few stickers at a time. That became a problem in a fairly short time. My little guy got very frustrated when he wanted to line up several train cars on the pictured tracks, but ran out of room to place them on the page. If the book had been just a bit bigger, I think my son would have found less frustration and more enjoyment. Even changing the orientation (having the "spine" along the shortest edge, so the book opens into a longer, narrower scene) would have helped. As it was, this little book kept my toddler busy for just a little while before he lost patience with its tiny size. If you're looking to keep a little one busy with a quiet activity for no more than 5-10 minutes at a stretch, this'll do the trick. If you're hoping for a bit more, this little book probably isn't for you.

I purchased a bunch of these (different titles) for a plane trip to keep my 3.5 and 1.5 year old girls busy (just got home yesterday, actually). They LOVED these. No, they don't really have a great "sticking area" to actually stick the stickers to - they limit this to the inside of the front and back covers. However kids love stickers regardless of the packaging or functionality and they like to stick

them on themselves too - so this was of no consequence. They kept the girls busy for hours. My 3.5 year old loved them so much that she wanted to know if she could have a new sticker book today (I still have a few left over). Totally worth the money. Oh, and if you're having a themed party, getting one that patches your theme would be great for goody bags! I will buy this again and again...

Nice quality. Great for little rewards or to keep in the diaper bag.

I have two sons, ages 4 and 6. They are active, as boys generally tend to be. Having these little booklets around is a great way to engage them in something productive -- for less than two dollars. Each book contains a background "scene" and four sheets of stickers (far more than will fit on the "scene" at one time). Since we discovered that the stickers are NOT really reusable (while they do peel off the "scene" easily, they curl up when you stick them back onto the sticker sheet) -- I make a photocopies of the "scene" (one for each son) and divide up the stickers between them. They are always excited to "do stickers" and they keep their scenes to look at again and again.

Perfect little activity book. The size was exactly as described. Cute little sticker book for a train letter. You can place your stickers any where you want. great stocking stuffer for my 2 year old train loving guy.

I purchased this sticker book and the three other train sticker books similar to it as party favors for my son's train themed birthday party. The item description (demensions, amount of stickers, etc) is exactly what you get. A pocket sized book of stickers perfect for a party favor for little boys or girls. Or, a sticker book to throw in your diaper bag as a distraction for your little one at dinner or a wedding or wherever they might need a distraction. Or just a simple little book of stickers just for your child to enjoy. And, at \$1 a piece, who can complain? So enjoy!
