# Lebron James: The Making Of An MVP

## Synopsis

#1 draft pick . . . Rookie of the Year . . . All Star . . . Olympic gold . . . Most Valuable Player-- Cleveland Cavaliers player LeBron James has had an exciting ride to superstardom. This book, by Cleveland Plain Dealer sports columnist Terry Pluto and NBA beat writers Brian Windhorst, takes a close-up and thorough look at the forces that shaped LeBron into an MVP. Pluto and Windhorst have covered the LeBron phenomenon closely from the start. Drawing from a decade of reporting and scores of personal interviews, their new book provides an inside look at each stage of LeBron's development--how his childhood shaped his personality and sparked his drive to succeed; how budding stardom in high school challenged him to grow up fast; how his first steps in the NBA weren't always easy; how he quickly grew into a forceful team leader in the NBA and on Team USA; and how he now works relentlessly to improve his game. The book has been nominated for the American Library Association's "Quick Pick for Reluctant Readers" (2011).

This is an excellent for anyone who wants an insight into the character and development of LeBron James

"LeBron James: The Making of an MVP" chronicles James from his childhood in Akron all the way to superstardom in the NBA. It follows in a long line of wonderful books by Terry Pluto, the award-winning sports writer of the Akron Beacon-Journal and now the Cleveland Plain Dealer. Cleveland Cavaliers beat reporter Brian Windhorst is Pluto's co-author. Accompanying the text are 90 outstanding color photos taken by the staff of the Plain Dealer. They record James from high school -- where in addition to being a basketball prodigy, he was also a football player of note -- all the way to the NBA. In addition, factoid boxes called The LeBron File, revealing interesting tidbits about James, are scattered through the text. The authors spared no detail in this portrayal of James. In addition to covering LeBron's pro career, they have talked to many who made an impression on him during his high school career. That includes teachers at St. Vincent-St. Mary as well as coaches and teammates. These interviews reveal a side of LeBron that you won't find in newspapers. Apparently being blessed with an athletic body is not enough to gain the success he has had. The authors constantly show examples of LeBron's drive and character. Eager to please in any situation, LeBron comes across as an extremely positive role model. Even as a kid when he lived part-time with the Walker family, LeBron adapted to a family routine, fitting in and helping with household chores. Later, that kind of attitude would prove beneficial when he was not fully accepted by Cavaliers teammates during his rookie season. He continued to do his best, and the Cavaliers dumped some players in order to fit players around him. His best included not just scoring points but being the ultimate team player. Versatility is the name of his game. The authors point out that LeBron would be a star if he were shorter and could not score because he's such a good passer. Thus, he has the scoring ability of Michael Jordan and the passing ability of Magic Johnson or Larry Bird. So containing him defensively becomes quite the chore. I would highly recommend this book to anyone who has an interest in James. This is so much more than just a basketball book. It

probes the character and off-the-court life of a basketball superstar as much as his on-the-floor contributions.

After reading this book, I should have known that LeBron was a traitor - especially when he TURNED his back on his public school in Akron to play for a Catholic School. That was the first sign that he was a traitor. This book doesn't deserve any stars.
