"Essential if you want to put your body back in tune with nature." * Daily Mail *

Charles William Daniel (1871-1955) was a maverick free-thinker whose tiny publishing house had august links with many of the most influential thinkers and movements of the 20th century. To wit, copies of Daniel's books could be found in the library at Ghandi's ashram. This spirit lived on after his death, and the company maintained its niche by publishing definitive texts on a variety of spiritual and esoteric subjects. Many of these titles, notably those on Aromatherapy and Bach Flower remedies, have become standard works on the subject. When the C.W. Daniel list went looking for a new home, the Vermilion and Rider imprints were the natural place for this wonderful collection of authors.

This is a good and interesting book. However in the back of the book are dates/years that tell you what moon cycle you are in on any given day. The years only go through 2012. I'm now looking for one with current and future years but can't find one.

Thanks !
