A mile-a-minute thrill ride with surprises that will have readers holding their breath until the very end, *The Crown of Fire* is the last book in bestselling author Tony Abbott's Copernicus Legacy series.

The first time I saw the book I got excited because my own name is Becca. Now I realize that it doesn't matter what the characters names are - they wriggled their way into my heart forever. These are the books that make it exciting for me to read every day. I wish there were more books... but nothing lasts forever except the happiness and joy and excitement that these books bring!

Great book! Got here quickly and the story was great. Fast paced action and hold-your-breath suspense. A lot of unexpected twists and turns, but the ending was great!

The ending was not done very good. It was like something was missing. I had to go back a few pages to see if I missed something. It was a fun book so don't rule it out.
