A Collector's Book Of Retired Lladro

Genuine Figurines
&
Their Marks

A
Collector's
Book of
Retired
Lladro®

By Peggy Whiteneck

Synopsis

Ever since its founding in the 1950s and its subsequent, stellar rise to global prominence, collectors have been fascinated with the singular modeling and attention to detail in LladrÃ Spanish porcelain figurines. Eventually, collectors discovered that LladrÃ wasn't just one brand but several. At the same time, other companies began to sprout up all over Spain, particularly around LladrÃ 's own region in Valencia, working "in the LladrÃ style" and hoping to catch a ride on the tailwinds of its popularity. This book is written to acquaint readers with retired figurines in all the LladrÃ and LladrÃ -affiliated brands and to help distinguish them from the work of other Spanish companies. The book features substantive chapters on the LladrÃ (r) "core brand," NAO by LladrÃ , Zaphir, Golden Memories, Rosal, and Hispania, complete with representative photos.

Customer Reviews

A good basic book, but it does not contain the newer items and does not provide values at all.

Replacements.com is a good source of some, but not all, values. This book does have a very nice history of the brand and made me aware of some of the other knock-off brands. I had inadvertently bought one of those brands on e bay before I read this book. All in all, this is a worthwhile purchase.

Not a catalogue but a list of Peggy Lladro. None of mine Lladro or Nao is in the book. It does not explain that the Marks properly I have a piece with 1970 imprint mark but the piece same also has the blue mark, but has good book for information and is well written, a good book to have for history.

I am always looking for information for my antiques. I have thoroughly enjoyed this book and would recommend it to everyone.

This collector's book of retired Lladro figurines promised much more than it delivered. There was little to no new information that couldn't be found for free on the internet. The only truly detailed information was about the various kinds of marks on the bottom of the figures. It's OK, but I don't feel like it was worth the cost.

Book was well compiled, photos excellent. Much work went into you could tell. Great to see another fan of Lladro

This book is very helpful regarding Sevin.

It was not as detailed as I expected

Contains a lot of information on history of the company and the products. Not much information on specific items.
