Creative Lettering: Techniques & Tips From Top Artists

Synopsis

Hand-lettering techniques are a popular and visually dynamic way to add textual elements to crafts, from journals to mixed-media art. Sixteen accomplished contributors—including calligraphers, painters, collagists, card makers, fiber artists, and graphic designers—give their personal perspectives on lettering. They all offer their favorite tools, how they use them, their signature technique with step-by-step instructions and photos, and an alphabet sampler of their own font.

Gorgeous gallery images of each contributor's work are also included. Contributors include: Andy Ainger, Francois Begnez, Flora Chang, Barbara Close, Philippe Debongnie, Karyn Denten, Aimee Dolich, Lisa Engelbrecht, Pam Garrison, Stine Kaasa, Rhianna Lederman, Martha Lever, Linda Schneider, Jessica Swift, Madeline Tomkins, Lori Vilegen

This is a FABULOUS book. I have created several different art projects with it, including the letter art one (photo attached). As I was completing a large R, a neighbor child was playing in our house. She gasped and said, "That's beautiful!" Imagine her surprise a few days later when I made one for her...

As many reviewers said, it's NOT a tutorial in any way shape or form. It seemed like a bunch of "interviews" with various lettering artists, with questions like "favorite letter" and "favorite writing implement". Each artist does provide an alphabet, but there are few instructions.

More of a cutesy lettering book than a real lettering guide. There are, all in all, maybe 5 useful pages for professional letterers.

This is a fantastic book. I have recently become a private music teacher and am suddenly needing to hand write assignments and critiques that also need to be legible enough for my students to read. This is difficult for me because I rarely hand write things in my normal life. This book has helped me to find a style of hand writing that I like and gives me techniques on how to write legibly and quickly (a must!). The book also gave me a lot of tools and tips for doing "special" writing that really brings up the beauty level of meaningful things like writing in birthday cards, etc.

I've used the "fresh fun" alphabet on page 15 for many signs at my library. I really love this book!

I love this book and it's companion. I am a "beginner" in "serious" lettering and this has been both encouraging and helpful. I have used it in my Bible journaling journey as well. Check out my IG for some examples from Creative Lettering and More Creative Lettering, strawberry.Audrey. Jenny Doh is so wonderful at curating great artists and beautiful books!

I LOVE this book! I am planning on getting the new ones as well! Informational, beautiful, variety. The book is a good quality, and there was no damage through shipping. I take it anywhere I will be staying for more than a month! :)

Bought this for my daughter who makes and sells wooden signs. It has a lot of different lettering but unfortunately, it doesn't contain a complete alphabet for each one.
