See What Satisfied Readers Have to Say!! "I have recently been getting into yoga. While I still consider myself somewhat new, I am always looking for ways to improve my form and new poses to try out. This book has helped with both. It has given me insight into new challenges and helped me realize some of the mistakes I was making with previous poses. It has really helped me improve and move forward in terms of yoga and I will soon be more than just a beginner!" - Braden "Great book! The book explains in clear language, and has a good variety of exercises. Some are easy - even I could do! Some are more challenging and require extensive training. The book begins with explanations and concepts about yoga. The exercises are divided into groups: - Four Warm-up Yoga Poses - Four Warrior Poses - Five Power Yoga Poses - Five Fundamental Poses of the Sun Salutation. I definitely recommend, this book which can fit beginners as well as more advanced levels. Enjoy!" - Michael "I know that the benefits of Yoga are innumerable and encompass the physical, mental and emotional aspects of life. In fact, this may be cited as one of the single most powerful reasons for people taking up Yoga practice. I learned from this book that Yoga has proven itself the only complete, holistic science and art of living that encompasses, within its many disciplines, the art of workouts as well as relaxation. This book by Tori contains proven steps and strategies on how to do yoga properly to help us achieve the full benefits of the said practice. This book also helped me learn the 21 most common poses in any yoga tradition. For a beginner, everything that I need to know about this practice was tackled here such as its basic concepts and beliefs we must know before starting to practice it, fundamental poses of sun salutation and meditation poses. Definitely recommended book to those who wants to understand and appreciate Yoga. Whether you're a beginner like me or a professional, this book has something good to offer." - Judy Hopps Take action today and download this book for a limited time discount of only \$0.99! Customer Reviews

I've been practicing yoga for several years off and on, and I thought I might be "above" this book in terms of knowledge. I was wrong :). What I liked about this book (and why it got 5 stars from me) is the clear, concise descriptions of poses. A couple of poses I had been doing for years, I had been doing incorrectly. It's amazing what good instruction can do for your practice, and this book is easy to understand and worded correctly. Important in yoga, because if you're overextending yourself due to misinformation, you can end up really hurt! So I'd recommend this book if you're a beginner, or if you're like me and have dabbled for several years and thought you were beyond the Beginner Phase, especially if your only instruction has come from home fitness yoga videos.

Every one who practice YOGA I think this book is si helpful to them. Its very useful and rapid short read. Very helpful for someone (like myself) that has only done a single yoga sessions and looking for basic information and content. I appreciate the referral to other books on related topics and the

discussion of basic poses and Zen. Its Useful place to start in exploration of yoga.

If I can give it more than 5 stars I will.. I love Yoga and I've been practicing it for years. In this book I felt confident when I read this sentence in its beginning: "anyone can get the benefits regardless of weight, body type or fitness level".. I learnt that when doing anything, I should be very relaxed and do it very smoothly. It helped me clean my house very smoothly today. The book is interesting, not complicated, direct and to the point.

I have recently been getting into yoga. While I still consider myself somewhat new, I am always looking for ways to improve my form and new poses to try out. This book has helped with both. It has given me insight into new challenges and helped me realize some of the mistakes I was making with previous poses. It has really helped me improve and move forward in terms of yoga and I will soon be more than just a beginner!

I'm new to yoga and I must say that this book is very helpful. The explanations are simple and there are beautiful images to illustrate them. It gives the basic concepts without forgetting the meditation aspect, that is so important to yoga and sometimes overlooked nowadays. I totally recommend this book to anyone who is looking for an instructive and easy way to start with yoga.

Got me started. What more can be asked? Thanks!

I always wanted to start with yoga but I never had a book like this. I like this book because it has information about yoga and 21 easy poses to do. This is easy and simple reading with pictures for better imagination. The author did a great job. Thank you.
