# Cy Twombly: Catalogue Raisonné Of Printed Graphic Work

## Synopsis

Along with his celebrated drawings, paintings, sculptures, and photographs, Cy Twombly has left an imposing body of graphic work as well. As early as 1984, the Berlin-based art writer and Twombly expert, Heiner Bastian, compiled the first catalogue raisonn  of the artist's printed graphics which has been out of print for 18 years. Now back in print for the first time, this new edition of the catalogue raisonn  has been updated and includes the graphic works Twombly created since 1984 until his death in 2011. Cy Twombly's graphic oeuvre is characterized by a variety of graphic and printing techniques. Along with monotypes, etchings, lithographs, and silkscreens, the artist tested his expertise using offset lithographs and the combination of various print and reproduction techniques. The scholarly portion of the catalogue features 96 works created between 1952 and 2008, all of them illustrated in full color.
