There are so many reviews for this wonderful book of piano solos for church use, I hesitated to add yet another. But I do want to comment on those who implied these weren't full-sounding pieces or

challenging. True, it depends upon your skill level, taste, expectations, and other personal factors, but for the pianist who isn't concert quality, I believe these will be eminently usable. While for many years I have been organist at both morning services each Sunday, we now have twice-monthly traditional evening services, mostly for our older people who built up a dedication over the years for a.m. and p.m. church. Several folks purposely arrive early, to listen to what amounts to almost a mini-concert. As I try not to repeat music within a year and sometimes two, it is a challenge constantly to be on the lookout for new, interesting piano arrangements suitable to this age bracket. I use at least 6-8 pieces for this prelude time, meaning I need quality pieces I can learn quickly, generally at the upper-intermediate or moderately-advanced levels. "Sunday Solos for Piano" has been great. There are a number of truly lovely arrangements and, as in all music books, some that are less special. In most things I buy, there are several I won't use at all, but that is not the case with this volume. I have already played almost every piece at church, though I have only had the book a few weeks. Styles are varied. For example, "Blessed Assurance" seems almost jazz or ragtime in rhythm (and I didn't do it justice last Sunday night!), "Be Thou My Vision" hauntingly beautiful--purposely not a "full" sound--done with interesting chords and note progressions that are not at all difficult. Minor and major key changes also provide originality in a few instances. Similarly, whether a "grand old hymn of the church" or more recently-written music, each arrangement seems designed for the pianist who wants lack of extreme difficulty, with interesting music content that will thrill believers.

I am a church pianist and really appreciate how beautifully the pieces flow together but I do find that some of the pieces are definitely for intermediate to advanced pianists and therefore not for beginning pianist, I feel they would get frustrated trying to learn them. Plus I want to add that I just recently played for church and played the piece "Shine Jesus Shine" and I actually had a couple of people and our pastor singing along with it (even though there are no words with the pieces, they knew the song/melody).. It was wonderful!!

I've used this for several church piano gigs. I normally just use it as background music/filler. It's a bit too simple in some ways, but it still has all the favorite hymns and they are pretty decent arrangements.

This is the one that I use the most for providing music for our worship services on Sabbath. I like the arrangements and most of them are very recognizable to the congregation which I serve.

Great arrangements, and a nice selection of songs, nicely divided between traditional hymns and contemporary praise songs. The index by purpose (offertory, preludes, etc.) is a nice feature, too.

The first thing I noticed about this book is that the binding does not allow the book to stay open when playing from it. I'm very much a fan of Martha Meir and Tom Fettke arrangements, and this is not at all like those. The chording is very weird and dissonant, and the melody is over-simplified. Overall I'm quite disappointed and will not buy another book from this series.

There were several songs on the list that I was interested in. However, I could not get the 'feel' of the music. I don't have a lot of time for practicing for preludes, etc. These were not difficult pieces, but the rhythms didn't "work" for me. Sometimes I'd be 1/4 of the way into the piece before I'd even recognize it. Returned it.

I have played several numbers from this book, I liked them and so did the people attending our services that are held in a retired adult home. I'm glad I did not return it - the numbers are such that it doesn't take a lot of practice to present.
