ea. vol: map. (Creative Minds Bks.). CIP. Carolrhoda. 1988. PLB \$9.95. Grade 3-6 Ferris presents all the pertinent facts about her subjects, but in a narrative framework that includes invented dialogue, attributed emotions, and selective highlighting of events. This makes for interesting, readable stories that still contain enough information for reports. Go Free or Die is the weaker of the two. It has some major discrepancies with other sources, and traces Tubman's life only through her escape from slavery at age 28. The remaining 50 years of her life including her numerous trips back South to lead other slaves to freedom, her Civil War activities, and her later years are covered in an 8-page afterword. Sam and Beryl Epstein's Harriet Tubman: Guide to Freedom (Garrard, 1968), geared to approximately the same age group, covers most of Tubman's life in an adequate manner. Walking the Road to Freedom is better, although the black-and-white illustrations are boring and bland. Truth's long life is covered effectively. Ann W. Excellent!!! Would recommend to be read to a toddler or for a young reader. It is part of a series.

Perfect for book report

One of the best books written on Harriett Tubman. Excellent for 4th graders.

5. The book is about Harriet Tubman and her getting free. She got taken away from her mother when she was young. She thought she would never get to see her mother again. But one day she got sick and they let her go back to her mother. She didn't have to go back because she never really got well. She finally got well enough that she could go outside. 6. I think the story is a great story and I think anyone should read it. 7. I think the story had irony in it because I didn't think that she would see her mother again and I didn't think she would get sick either. 8. I rated the book five stars because it's the perfect book to read and the book is for anyone.

My mother bought me these books when I was in the 3rd grade. They got me through many book reports and biography assignments in elementary school. I had never heard of Harriet Tubman, Sojourner Truth or Benjamin Banneker before. Even now that I am in college I remember things I learned from these books! I can't listen to a lecture on slavery or African-American women and not think about this book! These books are simple enough for any child to understand, and it might just spark their interest in history too.

This compelling work of historical fiction describes the childhood and the dangerous journey of Harriet Tubman (1820-1913) along the Underground Railroad to freedom. The story describes

Tubman's life from age 6 to 24. The author supplies vivid details about Tubman's parents, overseers, and her journey. An Author's Note and generous Epilogue supply an overview of biographical details not set out in the story. Numerous rich full-page pencil drawings by Karen Ritz enhance the text. I recommend this book to any school community. Review by Don K.

I have not read the whole copy of go free or die but i've read read small stories about harriet tubman the underground conductor . harriet tubman greatly inspired me and taught me how to be brave especially when your life is threatened .as a great reader of history i know what african americans went through for hundreds of years . to me she is the greatest woman of all ages as a woman she risked her life more than any black man ever did. she is a woman of the millenium .I wish I c'd get more of her books .

My book is Go Free or Die. wrote by Jeri Ferris. The main person in it was Harriet Tubman . Harriet wanted to be free. Because she was a slave. She has been sold but they did not keep her long . Because got hurt to much. She does something about her wanting to be free. My favorite part is were she told her friend she went only were the lord send her. She said this because she had saved over 19 people and never lost one.
