VISCERAL: The Art Of Jason Edmiston

Synopsis

The first complete monograph from pop culture's "Rembrandt". Praised as much by Hollywood as by his fan base, Jason Edmiston is THE greatest painter of Geek culture of our time. Adopting a classic style, he creates incredible oil paintings of Batman, Daenerys Targaryen and Dracula, to name a few. Featured in various American and Canadian conventions (he lives in Toronto), he is followed by a huge, loyal fan base who are desperate to procure all of his posters and limited editions. Curated by another celebrity on the Geek art scene, Jay Shaw, this book brings together all of Edmiston's most famous works, including many new drawings, as well as several pages of technical advice.

Just beautiful. I can look at this book for hours. Oh wait I actually do! the realism in Jason's work is just stunning other than the eyes without a face series my other favorites are his Hateful 8, and Big Trouble in Little China. No I do not have a Kurt Russell man crush. Buy it you'll love it.

I have been a fan of Jason Edmiston's art for many years now. I can remember hearing mention that he was working on a book quite a while back, and I have been waiting excitedly for it's release. Well worth the wait! This book is crammed full of some of Jason's best artwork to date, and it also gives a look at his painting techniques. Bottom line? This book is worth every penny, and I can't wait to see what the future holds for Jason and his amazing artwork! Highly recommended!!

My husband has been a fan of Jason Edmiston's work for years. This is a great coffee table book and conversation piece. Even my kids loved looking through it. If you or someone you love admires his work get the book, you will not regret it.
