Customer Reviews

Great information and details on what exactly you need to know while staying in Dominican republic. I really like the pictures and the information about the restaurants and the type of food that will be served at the resort.

Was a great quick reference book. Thanks. Just enough information to peak your interest In upcoming adventure to the Dominican Republic

Have a friend going to the Dominican Republic soon and looking forward to the tips in this book!

Not as helpful as I thought it would be. Most of the information can be found in the net for free. It also felt a bit biased in favor of the resort, make no mistake about the resort in terms of their aggressive selling of their vacation club packages; they will try hard to get you to purchase one of them. The bottom line is that the information on this book is not worth the money paid for it.

Thanks for compiling this for us. I read someone's review about how much of this could be found on the net. This is true of a great deal of books about travel locations. But I appreciate that you have brought everything together right here. You have saved me a ton of time and added your valuable perspective too!
