The Dazzling Heights

Synopsis

The sequel to the New York Times best-selling novel *The Tenth Floor*. New York, 2118. Manhattan is home to a thousand-story supertower, a breathtaking marvel that touches the sky. But amid high-tech luxury and futuristic glamour, five teenagers are keeping dangerous secrets. Leda is haunted by memories of what happened on the worst night of her life. She'll do anything to make sure the truth stays hidden - even if it means trusting her enemy. Watt just wants to put everything behind him - until Leda forces him to start hacking again. Will he do what it takes to be free of her for good? When Rylin wins a scholarship to an upper-floor school, her life transforms overnight. But being there means seeing the boy whose heart she broke and who broke hers in return. Avery is tormented by her love for the one person in the world she can never have. She's desperate to be with him - no matter the cost. And then there's Calliope, the mysterious, bohemian beauty who arrives in New York determined to cause a stir. And she knows exactly where to begin. But unbeknownst to them all, someone is watching their every move, someone with revenge in mind. And in a world of such dazzling heights, just one wrong step can mean a devastating fall. The sumptuous second book in the best-selling *Tenth Floor* series has all the drama, romance, and hidden secrets that landed the first book in this series on the New York Times best seller list.

Book Information

Audible Audio Edition

Listening Length: 13 hours and 21 minutes

Best Sellers Rank: #41 in Books > Teens > Mysteries & Thrillers > Romantic #55 in Books > Teens > Mysteries & Thrillers > Thrillers & Suspense #70 in Books > Teens > Literature & Fiction > Girls & Women

Customer Reviews

Warning: spoilers for *The Tenth Floor* might come up in this review. You know what? the magic of *The Tenth Floor* which had me enamoured enough to give it a 4 star, has faded! I

liked that one more for the rosy picture it painted of a technologically advanced future, but still with some realistic teenage issues. This book was, on the other hand, simply put, a mess. Now, *The Thousandth Floor* (TTF) had ended with an accidental murder (I will call it murder, damn it, since she tried to cover it up) and the blurb for this one went something along the lines of 'guilt! secrets! blackmail! revenge!' and I geared myself up for a PLL-esque plot. Cliche, I know, but a comforting cliche. Especially when this series is just a futuristic *Gossip Girl* on crack. (I'm sorry I was blinded by the tech-filled future in TTF and wholly ignored this fact) A thing which I did not particularly care for in TTF was Avery and Atlas. They are both so generic and boring and the incest plot is frankly disturbing. (No, I don't care that they are not related by blood - they were brought up as siblings and that makes it incest in my eyes, okay?) I don't know why or how McGee thought that incest was the Next Hot Thing, but I could swear half of this book is Avery pining and hooking up with Atlas - which and honestly made me go - 'Girl, your best friend died! Shed a tear or two maybe?' Honestly, Leda had much more of a reaction to that death, (I mean, obviously, still...) and she got a decent character arc in this book, which was a step up from her 'stalker-ex' arc in the earlier book. Her 'blackmail-everyone' arc isn't morally better, but was easier to digest because she at least shows some remorse and grief over the fact. If you were hoping for a revenge arc like me, you are bound to be disappointed, dear reader-of-my-review, because Mariel doesn't appear for a huge portion of the book. There are barely any stakes in the book - nearly everyone is carrying on with pretty much the same life as before. We have a slightly interesting character in Calliope, but even she let me down, because the blurb promised something and the book did not deliver dammit! (his is why you don't exaggerate stuff in blurbs to heighten anticipation, btw). A large portion of the story still revolved around teenage hook-ups (yawn), and everyone kissing everyone (it gets fairly repetitive at some point). And you know what enraged me more - all the couples/hook-ups were allocishets! I feel like Eris was made the Token LGBT character and then killed off for shock value, and I won't even go into how much that irked me the second time around. Going back to the technical aspects, the writing is still pretty good and the world-building interesting, I agree. But those are first-novel aspects I value - in sequels I judge more harshly on other things like characterization and this one could not satisfy me. No amount of 'look holographic waterfalls' could distract me from how shallow the plot of the book turned out to be. Received an advance reader copy in exchange for a fair review from Harper Collins, via Edelweiss.

THE DAZZLING HEIGHTS has all the glitz, the glam, and the drama of THE THOUSANDTH FLOOR, so if you liked the first book in this sparkling series, then I guarantee you will love this one

as well. All our favorite characters from book one are back...most of them anyway, and boy-oh-boy are they badder than ever. Never having been a New York high-society gal myself, I can't attest to whether or not all that beauty and privilege truly is accompanied by this much drama, but for me, it is incredibly entertaining to read about! I simply cannot get enough of it. Katharine McGee introduces us to some new and, of course, complicated characters in *THE DAZZLING HEIGHTS*. They proved to be such fantastic new additions to the cast. There is also a new romance that I shipped, and I shipped it hard! I can't wait to fangirl over it with some of you! The stakes for each of these characters is constantly at such a high, which is definitely part of the reason why I am continuously glued to the pages. The way the author blends all the individual story lines together makes for a plot that is fast-paced, entertaining, and utterly addictive. The structure of the story itself is very similar to that of *THE THOUSANDTH FLOOR*, and at the beginning I wasn't quite sure if I was going to really enjoy that, but the way Katherine McGee tied it all together in the end was absolutely brilliant and definitely has me anxiously awaiting the release of the next book in the series. My one complaint about *THE DAZZLING HEIGHTS* would be that I wanted to see more of the tower itself. The world that Katherine McGee has created in these stories is gorgeous, glittering, and a place that my imagination just adores living in. There were a few cool new techy elements, but this novel didn't have the same level of focus on the setting as the first book did, and I did miss that a bit. I would love to see more of this phenomenal setting in book three. I really, REALLY enjoyed this book. I finished it days before rating it, because I kept going back and forth between a four or five star rating. If Goodreads did half stars, this would definitely be a 4.5 for me. This is one of my favorite YA series currently on the market, and I simply cannot wait for more.
