Six Impossible Things

Synopsis

In this charming story of one guy's efforts to get it together when his life is falling apart, award-winning author Fiona Wood introduces an irresistible voice and a delightfully awkward character who is impossible to forget. 1. Kiss Estelle. 2. Get a job. 3. Cheer my mother up. 4. Try not to be a complete nerd/loser. 5. Talk to my father when he calls. 6. Figure out how to be good. Nerd-boy Dan Cereill is not quite coping with a whole heap of problems, including a reversal of family fortune, moving, new-school hell, a mother with a failing wedding cake business, a just-out gay dad, and a massive crush on Estelle, the girl next door. His life is a mess, but for now he's narrowed it down to just six impossible things....

Customer Reviews

Poor Dan is not exactly in the best situation. His dad left his mom, he's in a new school, and he's in love with the girl next door who seems to think he's a moron. But as with books like this, his good

nature and determination help him turn his life around. I love reading stories like this and I love how Fiona Wood made Dan so lovable that even when he did stupid things, I couldn't help but cheer for him. In the end, his victory was mine too! Read it, you'll love it too!

Six Impossible Things is a honey of a book. Wood writes in a light, deft, warm style: genuinely witty without being precious or twee. Admittedly, the protagonist, Dan Cereill, is more articulate and mature than any straight teenage boy I've ever known, but a novel written in the first person requires that we cut the author a little slack in that regard. The characters are well drawn and credible; the situations are funny and plausible; the ending is happy-ever-after without being cloying. Great book. Apparently Wood is currently working on a second book. I'm pre-ordering.

This author has an amazing voice that I savored and devoured. Every metaphor was unique. The main character really took charge of his own life and never let anything happen by chance or circumstance. This was a very fun and engaging read.

What a fun book! I loved all the characters and it was fun reading a romantic YA book from the boy's POV. Great ending, too.

I read this book in one sitting just this evening and loved it. The characters are likable and real - and the story works

good book

Review posted on The Eater of Books! blogSix Impossible Things by Fiona WoodBook One of the Six Impossible Things seriesPublisher: PoppyPublication Date: August 11, 2015Rating: 2 starsSource: ARC sent by the publisherSummary (from Goodreads):Fourteen year old nerd-boy Dan Cereill is not quite coping with a reversal of family fortune, moving house, new school hell, a mother with a failing wedding cake business, a just-out gay dad, and an impossible crush on Estelle, the girl next door. His life is a mess, but for now he's narrowed it down to just six impossible things...What I Liked:This book is cute, very much lower YA literature. Oh, what it is to be fourteen again! That was six years ago, for me. How time flies. This book is all about fourteen-year-old Dan, and basically how life took a dump on him and his mother in a very short span of time.Dan's father springs it on Dan's mother that the company is bankrupt and their home and assets are to be

liquidated. Oh, and he tells them that he's gay, and he and the mother are no longer together. Great-Aunt Adelaide died, conveniently leaving Dan's mother a house, but not a house to keep. It's a historic house, and it's a bit of a dump, honestly. So they move, and Dan has to start in a new school system. Dan and his mother are totally broke, and can't even afford utilities in the house. Everything is a disaster for this boy, and he has to learn how to be much older than fourteen. Dan gets a job, changes his lifestyle, his look, and falls in love...This is a coming-of-age novel, and it seems like it's meant for younger audiences in YA. Dan is fourteen, and he certainly thinks like a fourteen-year-old. Still, I think I liked him. He's totally awkward and weird, nerdy and painfully shy. I don't think I was anything like this at fourteen, but I definitely think Dan is an authentic adolescent character. And certainly fun to follow!

The story itself is ridiculous and a bit exaggerated? But also fun to read. So much craziness and shenanigans go on in this book. While the tone is lighthearted, there is also melancholy and sad. Life is hard in the Cereill home. There is a lot of struggling and hate towards the father and frustration with each other. But I like these negative emotions, and how well Wood writes this situation. There is romance - Dan is basically obsessed with Estelle, the girl from next door. Estelle thinks Dan is a bit weird (which is true), and so it isn't mutual at all, at first. Dan makes a fool of himself in school and outside of school no matter what he does, but he never really stops trying to indirectly win Estelle. The romance isn't one of my favorite, but it was sweet, in an adolescent way. Overall, I think I liked the story, but it definitely wasn't one for me. This is definitely a case of it's-not-you-it's-me. Contemporary doesn't always work for me.

What I Did Not Like: I'm not a huge fan of lower YA, I'll just say that right now. It's not my thing! I can't dislike this book because it's lower YA, that's not fair, but I'm saying that if lower YA is something that you enjoy, then you'll already have a better chance at liking this novel, than I did. I really didn't like how Dan was so obsessed with Estelle. It was creepy, and weird, and didn't come off as romantic or nice at all. I would have been very angry and very hurt if someone did some of the things Dan did to Estelle, to me. In general though, Dan is literally obsessed with Estelle, and no part of that is okay, in my opinion. I didn't like how overblown and exaggerated things seemed. Maybe the author wrote this book years and years ago, because no one in high school acts like they way they do in this book? No one immediately starts calling someone a d**khead, in public, in front of everyone, especially not a new kid. No one takes a Sharpie and writes all over the new kid's face. This is like Mean Girls but for boys, and it is so exaggerated and infuriating. Also infuriating - how much illegal and/or trouble-making activity goes on, and how Dan keeps letting it happen or not tell adults. You're fourteen, not twenty! Dan is a pushover and lets people walk over him all the time. Which kind of ties into the romance - read this next part at your own risk - I kind of wish Dan would say no to

Estelle more. She totally uses him at several points in the book! Totally not okay! And he keeps saying yes, because omg-she-is-paying-attention-to-me. Gee, I wonder why...And then when everyone was blaming Dan for something completely out of his control... honestly, everything in this book was way too exaggerated for my tastes. Contemporary novels often aren't my thing, but this one was a different kind of contemporary that I didn't really enjoy. To be honest, the story was a bit on the boring side...I like when everything is pulled together at the end, but most of the story is focused on Estelle and Dan's obsession with her, which I wasn't really digging. So I found the story a wee bit boring, unfortunately. Would I Recommend It: I personally didn't love this one, but it's probably a "me" thing, like I said above. Or maybe it just wasn't that great. It looks like it's a popular book, so I'd say it was just me. Contemporaries are hardly agreeable with me! Still, I'm glad I gave this one a shot. I won't be reading the companion sequel, *Wildlife* - especially from the sneak peek I saw in the back on this book! What is happening?! Rating: 2.5 stars -> rounded down to 2 stars. I wish I had liked this one! I tried though. The voice is very unique, the protagonist very original and likable, but the story wasn't that interesting to me, and there were a bunch of little things that bothered me!

Personable, sweet-natured characters and, by today's standards, some "innocent teenage antics make *Six Impossible Things* a refreshing reading experience. Fiona Wood understands the concerns that plague teens and treats the characters and situations with empathy, never denigrating the teens' concerns or minimizing the situations' impact on young lives. Dan Cereill's life is in chaos. He is a nerd. The family finances are in ruins. His parents have divorced and his father announced he was gay. His mother's deceased great-aunt left her a life estate in a deteriorating historic home that includes Howard, an elderly dog, and Oliver, a tenant living in the stables. His mother has attempted to start a wedding cake business, and Dan will have to attend a public school. To complete that upheaval, Estelle the most beautiful girl in Dan's world is his "unattainable girl" - lives next door. A self-described "chronic list-maker" Dan frequently creates lists, each consisting of six items that reflect his concerns, activities, and life events. These lists are often humorous, but each one provides more insight into his life and the manner in which he approaches and deals with individuals and situations. Some items on the lists are flippant, some sarcastic, and some poignant. As the

story in *Six Impossible Things* progresses, Dan gradually develops a friendship with Estelle that mushrooms into a series of escapades resulting in a final, satisfying conclusion. *Six Impossible Things* is appropriate for the target audience, but can also be enjoyed by adults. The book is a change from many targeted at *Between* and teen readers in that it does not involve psychotic and violent individuals, mean cyber-bullies, drugs, or graphic sexual situations. The novel addresses other real-life situations, but does so in a more conservative manner than other novels. A school dance where the refreshment committee spikes drinks with vodka does result in Estelle becoming drunk and in Dan having to help her get home safely. When Dan is thinking about his mother preparing for a date with his boss and on his father announcing he is gay, he does make the point that she can't remember how disturbing it is to think of your parents being sexual.

Six Impossible Things is a lovely book that was a pleasure to read. It is both easy-to-read, easy-to-love.
