THE CONSTRUCTION SPECIFICATIONS INSTITUTE (CSI) is a national association dedicated to
creating standards and formats to improve construction documents and project delivery. The
organization, which has 146 chapters, is unique in the industry in that its members are a
cross-section of specifiers, architects, engineers, contractors, and building materials suppliers. CSI
is renowned in the industry for its rigorous certification programs for professionals seeking to
improve their knowledge of accurate and concise construction documents.

I am using this as a Textbook for my Construction Administration Class. Great book

Very Good

exelente

Examples of the AAA forms are adopted in every business, and never saw AA being used as it is in the book. Overall, too much info in the book, useless, outdated, and confusing, waste of time to read. Look like the author was in big hurry to make money and the publisher have something to publish as had nothing else to publish good. From Russia with no Love

This book is excellent for contract administrators and give you a one up on what is going on in contracts.

Help!!! I cannot get my code to download my forms. The directions state that you can call or log on to get the code if you purchase a kindle book. IT IS NOT THAT EASY especially for persons outside of the United States and persons who are not computer savvy. I have called (spent over 10mins on the phone and it was not toll free) and used live talk where I got directions that I cannot understand. Not sure what to do no - Maybe return the kindle book!!!!

I'm using it to study for the CCCA exam and its also a great resource for building design/construction professionals.
