Library book we had to own. Love love love the cadence of this book and introduction to culture for my daughter! My husband and I quote it all the time now! "Hola, Jalepeno! I said hello, my chile

friend!" :)

We just love this book series, my kids have adored these books since they were about a year old. We're now buying a second set for a friend's baby shower. They're a great gift to buy for others as they're a little more unusual and it's unlikely someone else will show up with the same thing. My kids also happily eat almost anything these days and I certainly think it helps that no food was too foreign to them thanks to this series!

I have several Amy Wilson Sanger World Snacks Books (all of which I love), and this one is no exception. The graphics are bright and interesting, allowing me to introduce this book when my son was just a few weeks old. The words are fun and have a great rhythm, which has kept him interested as he gets older. I'm able to play with accents as I read these books aloud. This is one of my son's favorite books (he's now 7 months old). It's also a small and thin board book, so it's easy for him to hold and help turn pages.

You never know which book your baby/toddler is going to latch on to, but for our eldest, this was it. She is 13 years old now, and I can still recite it, word for word.

One of the best board book series out there. Every time a family member or close friend has a baby, we buy at least 4 of the different books by this author. They're super fun for parents to read, especially since some of the board books on the market are ho-hum.

My husband and I are having our first child and because of his Mexican heritage we have been calling the baby, our little Jalapeño. When I saw this I had to buy it for our little one. I surprised my husband with it and it was so fun to hear him read it to my belly. I can't wait to read it to our baby.

"Senorita Quesadilla, cheese is melting out your end." My favorite part. I have at least 4 of these books, different foods of course. My hopes are that as my baby grows older and is possibly finicky about food, she will remember what we read and at least try some of the pictured foods!

I bought this for a baby shower gift. The mom-to-be loved this and the other books like it. Great find and value.
