Do you love adult coloring? If so this is great buy for your husband or any older male. I color

frequently but my husband didn't want to color flowers and feminine things. So I went on the search for something he would enjoy. He loves it! The pages are so detailed not only with cars but also the background with trees, mountains, homes, and people. I'm so glad I found this and we have a hobby we can share together! He really enjoys it which was a pleasant surprise for me. I'm even considering purchasing one for my dad because he loves cars! The pictures have turned out so good. I was expecting a some what cheesy book nothing fancy. It was very surprising with all it has to offer.

A while back my boyfriend mentioned that he would like to color too. Time between things at the office would be more enjoyable. I didn't want to just get him any coloring book, I wanted it to be one he may enjoy. He likes cars so when I saw this I was very excited!! I purchased this to go with his gifts for Christmas. The art work is well done, almost like colorless pictures, with full backgrounds and everything. The paper was very nice as well. One thing he mentioned was a need for fine point pencils as he said some details were more difficult with the crayola twist up pencils I also purchased for him.

Love the designs/art....but the paper is wafer thin. Even using pencils and not markers, it bled through to the next page. Too bad as i love the cars featured within. Upgrade to higher quality paper...and i'll be back!

Not your average coloring book. Nice enough to appeal to the 4 year old nephew while entertaining the 8 year old as well. Has historical info. Can't go wrong with price point. Either way, would buy again. Nephew approved. Wallet approved.

I purchased several Dover coloring books by Bruce LaFontaine for my adult son and he enjoys coloring these classy cars. I also print his favorite cars so that he can color them several times. I have shopped around and can only find coloring books for children. I was happy to find the Dover coloring books suitable for adults.

Once i started I knew that the ink would show through but I wanted the sheen from the ink. I have ordered another to photograph and print each time i want to change the color of the vehicle.

Color pages are on both sides so if you use gel pens it will bleed to back of page. I like to have only

one side to color.

I bought this book as a gift for my artistic gearhead fiance and he absolutely loves it!! The picture quality is great and he loves the information about the various cars at the bottom of each page. I couldn't be happier with this product!
