Sculpting (Art Today!)

Synopsis

Whether clay, stone, glass, or another material, sculpting can be an amazing way to express yourself. While many people might try sculpting for fun, others make it a lifelong career, turning their art into a way to make money. Discover the world of sculpting, from how sculptures are created to the history of the art. Learn about the business of sculpting and how sculptors can make a career doing what they love. Find out how you too can get involved in a creative career in sculpting!

Age Range: 12 - 17 years

Grade Level: 7 - 12

Customer Reviews

Gr 5-8-Aspiring artists will find practical information and advice on how to get started in the arts in this series. Each title begins with an overview of the profession and also provides some historical background. Vocabulary, research-project suggestions, and review questions are included in every chapter, giving the books, which should be more suited to independent reading, a drier, academic feel, despite the clear style of writing. Of note is the series' inclusive representation of diversity in the photos, even if it is not always reflective of the content. In *Music & Musicians*, for example, Madonna is the only woman included in a century- and genre-spanning section on "Famous Musicians." *Acting, Writing, and Comedy* are particularly noteworthy titles in this otherwise average series.
