Belong To Me (Wicked Lovers Series Book 5)

Synopsis

She's undercover and in over her head. When FBI analyst Tara Jacobs's fellow agent and best friend goes missing while investigating a sex ring, Tara goes undercover as a submissive in a Dallas BDSM club called Dominion. But no man can top a woman with Tara's moxie convincingly enough until an edgy, dangerous Dom takes control of the scene and sets her heart racing with a single, commanding glance. Too bad he's also the man who stole her innocence years ago and one to whom she will never submit. He's got everything under control until he falls for her again. Navy SEAL Logan Edgington once left the woman he loved to save her life. He knows Tara will never forgive him, but he has no doubt that he possesses the knowledge to help her master her fears and the strength to guide her through an unfamiliar world of pleasure and pain. He alone can protect her on a dangerous mission that reveals both wicked depravities and terrible secrets. Logan relishes the exquisite torture of holding her again and feeling her uninhibited response. No matter how much Tara insists their fling will end after this mission, he's determined that she will be his once more and this time, he'll never let her go.

Suspense

Customer Reviews

Logan and Tara have a history. High school sweethearts torn apart by family tragedy. They are back together again because of an FBI mission in which Tara, AKA Cherry, is assigned to. Logan must train Cherry in becoming a submissive. Can she trust him enough to submit? Can he put aside his enduring love for her in order to train her well enough to survive the mission? This fast paced book has something for everyone. White hot passion, steamy sex, mystery, suspense and crime. Loved both Cherry and Logan as well as Xander. I am hoping to see him in his own story.

It took me two tries to get through this book. At first I was immediately turned off by the descriptions of Dominion, and Fantasy Key disturbed me greatly. Then I took some time off and when I came back to it, I looked at it with a different view. Fantasy Key is supposed to be disturbing, the main characters are disgusted by it, that is part of the reason they are there, to stop it. Some of the coincidences are a little too convenient. "Xander used to work there? No way!" but it helped tie the story together, especially since Xander is a recurring character in the Wicked Lovers series. Getting through the book allowed me to understand Logan a lot more than what he seems on the surface, and now I think I could actually like him if he were a real person, and I understand Tara's feelings for him. I was very glad to see how much Logan respected Tara deep down and was willing to change himself for her (pipe dream? maybe...) instead of coercing her into becoming someone he wanted her to be, especially that whole "you say you don't want xyz, but i know that you really do deep down" bologna. Tara remained a strong woman, able to handle herself and didn't fall into the 'take care of me i'm helpless' category. Make sure to give this book the chance it deserves, and you'll be glad you did.

Logan and Tara loved each other at sixteen. When Logan's mother is killed and he gets threatening letters about Tara he breaks up with her. Now twelve years later Tara is a FBI agent going undercover to find her missing colleague. Logan is the Dom who is training her. He can't believe she's back and will do anything to get her back. Excellent story. Steamy sex scenes. Suspense.

Part of Wicked Lovers series. Shayla Black is in her zone with this erotic romance series. If this is your genre you will not be disappointed. Dominant/submissive (unknown @ beginning) with a storyline of trying to break up abduction/sex ring. Teenage love that ended abruptly hero & heroine

reunite years later to try to take down bad guys... Twist, turn & surprise within storyline. Great sex. Great read.

First let me acknowledge that I have read all of the books of the Wicked Lovers series as well as other stories told by Ms. Black. I consider her to be an automatic purchase whenever I see her work. I have read many books in the genre. However, this is definitely not my favorite book in the Wicked Lovers series. The book has far too many pages that draw out Tara's struggle to trust her first love, Logan. Their story would have been much more rewarding if their conflict had a more believable focus. Oops, I'm going ahead of myself. Logan a Navy Seal on leave is a Dom at a club that has agreed train FBI agent, Tara, as a submissive so she can be believable when she goes undercover to rescue her bestie and fellow agent who is being held captive by a sex slave ring. Logan was Tara's first love and she gave him her virginity. However, the very next day he breaks up with her without sharing that he received a letter threatening her safety if they continue their relationship. So twelve years later, she's engaged and still trying to go on with her life though Logan remained in her heart in spite of efforts to hate him. Logan has not been able to have a relationship or meaningful sex with another woman so he's been celibate for the past 5 years. Logan has never stopped loving Tara. For him no woman can compare to Tara though many women would have loved the opportunity to show him otherwise. Anywho, this story was built on a juvenile foundation that was underneath the characters. Tara just comes off as whiny and hypocritical. I can't trust you because you broke my heart as a 16 years old male who was warned to stay away from me or I would die. Even after she learns why he broke with her 12 years ago, she still tries to punish him for it. What was the point of growing up? You didn't tell me that you if didn't collar and / or marry me, you would lose your membership at the club; even though, I put you in the position of having to risk your membership (conspiring to have you removed as my trainer / Dom), I was pushing you away, I was engaged to another man, and I refused to acknowledge that I never stopped loving you, we could have worked something out instead. REALLY? Logan I can't trust you yet I have sex with my ex while engaged under the guise of training for a mission. I can't trust you yet I won't tell my fiancÃ© that you are my trainer because I don't want him to overreact. Logan's celibacy was believable and endearing. It showed that he understood himself and sex. He demonstrated his masterful skills repeatedly throughout this tale. Xander needs a transplant before he gets his own novel. He comes off as a bratty sister rather than a Dom or a grow man's best friend. Really he did not know that it wasn't his place to tell Tara about celibacy, and undying love, tattoos, the collar and /or marry or you lose your membership agreement. The identity of Sire was obvious from the very

beginning. Shame too because a better subplot could have saved this book. The endings were rushed. Ms. Black should have spent more time on the island; it would have made for a much better read. Tara and Logan could have tested their trust issues on the island since Ms. Black insisted that that be the theme for this tale. Okay, ENOUGH of my rants. I was disappointed with Logan's story but I will continue to read all the books in the series because in general the series has been filled with sizzle. Do I recommend this book? It depends if you intend to read the series. If you are looking for a stand alone read, I say skip this one. If not, it's not the worst just not the best. You will get through it, I did.

At this point, I'm just about half way through with *Belong To Me*...seriously...I can't put it down! I love this story!! Tara and Logan are probably near as soul mates as you can ever dream. Their connection is raw and captivating. I adore how they react to one another and it's not in that overpowering mushy mushy were it's more like, 'ugh gag me'. It's just enough that you really feel their connection and are utterly jealous of it. Now, I'm finished with it, and most definitely this is my favorite *Wicked Lover* book so far. It's funny because I honestly went into this story with the thought that I wouldn't like it. Mostly because I was so excited about Hunter's story and really wasn't a fan of that one. Then learning *Belong to Me* was Logan's, I thought it was going to be something of the same thing since we already knew a bit of Logan's history. But, low -and-behold, a great story! Tara's training as a sub, their sexual energy together, their love for one another, just amazing. Such a great story!
