"House Industries display elite talent and craft in their design, illustration, and production, but the real magic is that they are alchemists. If you get that alchemy means taking non-precious metals and turning them into gold and platinum, then you \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢II understand it when I say that House turns numerous less-than-elite sources of inspiration into pure visual gold and platinum. It is easy for artists and designers to be precious, cryptic, and mysterious while peddling themselves as speakers of a language too smart for the rest of us to understand. However, it takes real courage to do what House Industries does: speak a common, if not universal, language but in such an elevated, powerful, and elegant way, that it reminds us how exhilarating it is to see a mastery of both the dominant and sub-cultural visual vernacular." \tilde{A} ¢ \hat{a} $\neg \hat{a}$ *Shepard Fairey". . . \tilde{A} \hat{A} the studies behind many of House Industries \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢ projects stress the importance of collaboration \tilde{A} \hat{A} and trial and

Known throughout the world for its eclectic font collections and far-reaching creative exploits, House Industries has been a standard bearer for American graphic design for 25 years. House $\tilde{A}\phi\hat{a} - \hat{a}_{,,\phi}\phi$ s work is in the permanent collection of the Smithsonian $\tilde{A}\phi\hat{a} - \hat{a}_{,,\phi}\phi$ s Cooper-Hewitt National Design Museum and will be the subject of a major exhibition at the Henry Ford Museum in the summer of 2017.

House is clearly passionate about typography and it shows throughout.

Decent read, great photos, well designed (of course). A must for the designer and typographer library.

Recomendo!

This book is beautiful! It's full color heavy weight pages. The cover is embossed. Almost all of the white pages have a shimmery white jacquard design printed on them. It's awesome to look and and the information in the book in inspiring. If you love fonts and graphic arts you have to get this. I also love the books by Ivan Castro and Jessica Hische and love both of them.

Fantastic history of the hipsters behind the terrific House Industries graphic design firm. The content of the book is incredible, but of course the design is great as well. If you're a fan of their work, you'll love it. If you're a fan of typography and/or graphic design, you'll love it.

This book is absolutely beautiful, and a wonderful source of inspiration! The print quality is top-notch, and every single page is beautiful. Their use of spot gloss is perfect and awe-inspiring. I'm not a design expert, but I am certainly a design enthusiast and I will cherish this inspiring book for years to come. I would definitely recommend for those looking to add to their inspiration resources!

House industries is amazing, they are generous and make kick ass work which includes this book, in both form and content. Insightful for someone pursuing a business in letters, inspiring for letterers, designers, product designers and pretty much any kind of designer there is.
