# Laboratory Tests And Diagnostic Procedures With Nursing Diagnoses (8th Edition) (Laboratory & Diagnostic Tests With Nursing Diagnoses (Corbet)

## Synopsis

LABORATORY TESTS AND DIAGNOSTIC PROCEDURES WITH NURSING DIAGNOSES, 8/e is the complete nurse's guide to using data from today's laboratory tests and diagnostic procedures to formulate, organize, and plan high-quality nursing care. This edition has been extensively updated to reflect the latest standards of care and the shift towards evidence-based practice, and to illuminate links between the nursing process and testing even more effectively. It introduces dozens of new tests and procedures, and offers updated information on many more, including expanded uses for many proven tests. Several new genetic tests are covered, as well as many rapid tests now available for point-of-care testing by nurses.

Average Customer Review: 4.3 out of 5 stars 31 customer reviews

Best Sellers Rank: #57,161 in Books (See Top 100 in Books) #67 in Books > Medical Books > Nursing > Diagnosis #75 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Diagnosis #91 in Books > Medical Books > Medicine > Diagnosis

## Customer Reviews

I think there are more concise lab books out there with quicker reference to what is going on and why. when doing care planning I am not going to do an entire care plan around one lab. If you are looking for a care plan to create off of one lab this is a good book, but if you are looking for quick interventions, and reasons for the lab being out of range this is not your book. It does give a detailed explanation of what is going on with the labs though.

As expected.

I payed for a new book and I don't like at all how this looks like. The outside of the book is a little

scratched on the back and the corners are bent. I really think this was used before even if the inside looks fine and not highlighted or anything. I just don't like how it looks outside.

Great

Downloaded easily and when I was having difficulty moving it to my tablet, called the online assistance, was talked through the steps. Now I can access the book on my PC and my android tablet while teaching.

shipped quick. not too much to say about the book, as I have yet to use it. I am sure it will be helpful though. I don't think you need any access codes with this one

Very fast shipping, very satisfied.

Very handy
