This is a good sequel to "Haven," most certainly. Liz is sure of herself, which I love in a heroine, and Silas is a wonderful hero. As far as bondage goes, there's some light play, which is sweet and intimate. I would have liked to see more exploration of that in the story. I voluntarily reviewed this work in exchange for an ARC.

I've read ALL Rebekah's books...love all her leads, but for male leads, Silas has to be my new favorite. I laughed out loud through this entire book! He is awkward and endearing and fine all at the same time! I don't want to give away too much, but obviously this read is also quite the sizzler and Liz/Ebie fits right in with RW's other strong, confident female leads. You will go right from this book to all her others ----enjoy!

I LOVE SILAS. And Liz kicks ass. I totally enjoyed this read, I even forgot I don't like 1st person present...

Excellent characters, story and sex scenes! Definitely into this entire series so far, can't wait for the next book to come out!

Yes yes yes ...this is sweet ..and might inspire you do go look for your own Silas ..and buy a farm .

Sanctuary by Rebekah Weatherspoon is the second book in her Beards and Bondage series. Like Haven before it, the book opens with an absolutely engrossing and intense set of chapters. Liz Lewis is a lawyer with a pissed off client, one so angry and petty that he has sent a contract killer after her. I could not put the book down. Weatherspoon's depiction of their encounter and its aftermath were absolutely riveting. I was particularly moved by Liz's inability to turn to her closest friends, because it would mean surrendering part of her identity, that of mother hen or protector. Her self-imposed isolation in those early hours were so incredibly painful. Liz is a tall, big-boned black woman, and the world doesn't let her forget that for a second. All the micro-aggressions and plain old-aggression she endures at the hands of law enforcement are just heartbreaking and it left a deep impression on me, because it is an experience I rarely see represented. I have never wanted to hug a heroine more, or smack around those who so casually disrespect her. Fear and lack of confidence in those who are purportedly charged with protecting her drive her to accept Scott's, her one brown office friend, offer of a hiding place upstate. Silas can't stand his brother, hasn't been able to stand to be in the same

room with him for years, so he is understandably enraged when he summons him with little explanation and dumps Liz's on his doorstep for an indefinite period of time. Worst yet is that in order to explain away her presence he has to pretend to be her online boyfriend. I loved how Silas and Liz struggle to understand each other. How Liz's trauma-induced rawness, means that she doesn't shrug off Silas' rudeness or grin and bear it. She confronts his bluntness and rudeness head on as she has simply reached her breaking point. Although Silas is undeniably gorgeous and attractive, that doesn't override their conflict, they have the hard uncomfortable conversations, set boundaries before they go further. I adored how Silas's admiration and desire were so unvarnished. He doesn't mince words and they reach Liz when she needs them most. Like Haven, the sex is hot and if you love a good femdom book, grab this one. Liz, knows what she wants and doesn't hesitate to demand it. But sex doesn't solve stuff, not on its own. Liz has stuff to work out, and so does Silas and I love the Weatherspoon gives them both the room and time to do so before their HEA. I received an ARC from the authors for review consideration.

There's a reason this author's books are eagerly anticipated. Sanctuary, like Haven before it, definitely delivers. Sanctuary is the second book in the beards and bondage series and darn, it couldn't have come soon enough. First things first. This book is really funny. Ms. Weatherspoon is so skilled at crafting dialogue that's humorous and sexy and frustrating due to the lowkey hatred of the two leads. Reading the dialogue between Liz and Silas is so pleasure able I can't even. The story opens up with our heroine, Liz, hard at work as a corporate attorney in NYC. Liz is living her best life really. She has amazing group of friends and a great sister. She's killing it as a lawyer when some tragic circumstances see her taking an impromptu vacation in upstate New York. There she meets Silas, the most taciturn, frustrating, sexy, difficult and endearing hero of late. Like he's annoying but so like-able and will break your heart, in the best way only. The dogs are adorable too lol. Their courtship is realistic in that it doesn't gloss over their frustrations with each other. How they initially come together is not ideal and both parties are initially pissed. I like that the author allowed both characters to feel those feelings. Another thing I love about this series is the author's attention to consent and trauma. In a series like this where trust and emotions are on the line, it would be very easy for someone to not be mindful of enthusiastic consent. She nails it, characters express and give consent and its very sexy. I also love how we get to see the various ways these women are dealing with trauma. As a clinical social worker, it warms my heart to know that mental health illness and therapy is being written about respectfully. Did I mention this books is funny? There's so much humor and heart. My only

complaint is that the book ends right when I got settled in with the characters. I want a longer books. That's it. Beards and Bondage has quickly become my favorite erotic romance series. Now off to reread.
