Really enjoy working out these pieces. I've been playing for a few years pretty regularly, these fingerings are a little tough for the rock/blues guitarist that I am but are useful in increasing my dexterity. It's a fun book to learn some incredible songs, and great for increasing strength on the acoustic guitar

Well thought out arrangements adapted for the guitar. A pleasure to play.

The arrangements are great and the cd is great just to listen to...especially the Arabian dance piece, very cool. Dance of the sugar plum fairies is also fun to play.

Just what I've always wanted

love it

The arrangements are great, but I was really disappointed that it includes tablature, for these reasons: 1. Traditional classical guitar music gives you enough information with occasional fingering suggestions, without needing to map out the entire thing. 2. The inclusion of tablature throughout means that you have to turn pages every 12 measures, which is really a drag.

Terrific recording and arrangement. I got this when it was first released and have been working on the pieces about 6 months. Very highly recommended!
