Customer Reviews

Not what I expected...very pricey for what you get. No pictures or nutrition facts for any of the recipes. It is more a pamphlet than a book. I lost my money's worth on this purchase.

There are a lot of recipes in this book! Everything seems pretty simple to follow and most of it sounds pretty good.

Poor quality book with boring recipes mainly tofu-based & other processed yuck. Maybe worth 25 cents, definitely not \$15.

Thank you. It arrived in good condition

LOVE IT! Bought it for a friend who is not vegan but an athlete dealing with health issues.

most cookbooks have usually one recipe that you like, and if it can be leading you to a healthy path, hey I think it deserves good credit!

Great cookbook.

This looks really good - can't wait to try these!
