## Customer Reviews

This book is amazing. I purchased it a few days after we put our baby, Duke, to sleep. Duke was my everything. My husband traveled a lot, and so I was alone a lot before we got Duke. Once Duke came into our lives, our whole world changed. Duke was my best friend, my walking buddy, my bed partner (LOL). Duke followed me everywhere, and I talked to him like he was my own child. We moved from coast to coast three times, and he was the one that introduced us to our new friends and neighbors. No one was a stranger to Duke. And he was loved by everyone. I received sympathy cards from our friends on both sides of the US when he passed away... Anyway, I was shattered but I knew enough to know I needed to read this book... I needed some healing. There is something about connecting with a dog... when you know each other's souls so well... that can't be described - unless you are Jack McAfgan. Jack helps heal your broken heart from a beloved dog's perspective. You will cry a little. You will laugh a little. You will think about your fur buddy being gone in a new way... They aren't really gone. They are love - and love knows no boundaries, not living or dying. If you have been loved and given love - it doesn't go away. Thank you Jack, for easing my pain and sorrow. Tell Duke HI for me, and I will see you both someday.

Jack..what an amazing boy. When I lost Kona this week, my heart shattered into one million pieces. Kona was my best friend, my entire heart. He was one of my children. We weren't expecting him to leave us yet. We didn't notice he was turning grey, until he was already there. We didn't notice him rapidly slowing down until it already happened. He never let us know he was hurting until he could not go anymore. When I read Jack's story, I saw my story almost to every detail. I laughed, I cried, I sobbed, then I had hope and peace. I still have Kona with me because the incredible bond between him and I. Jack gives us all the hope we could wish for when we lose our babies. I am thankful that this book found me when it did. I wish I would have known my time was getting short with him, but it's funny how our "dogs" because they are way more than that, are so selfless when it comes to us. He protected my heart for 11 years and through Jack, he is still doing that for me. Love you Kona Bear.

I ordered this book and received it the day before my beloved greyhound "Petunia" unexpectedly and quite shockingly went Home to the Rainbow Bridge. I couldn't read it for at least a week, as I was heartbroken over her. When I picked it up and began to read it, I couldn't put it down. I felt like she was speaking to me from the Bridge. This book has helped me work through my grief and know that she is still with me. I can't rave enough about this wonderful book - it is a MUST READ for anyone dealing with the grief of losing a pet. Wonderful!!!

This is a MUST HAVE for anyone who has lost a beloved pet. The messages are clear and after 7 months of grieving I have finally begun to heal. I do still grieve but I understand a lot more since reading this book. I highly suggest you buying it if you have lost a pet. It is written by Kate McGahan but told through her dog Jack. 1/31/2016: I am now adding to my first review because I have purchased 12 more books. I plan on giving them to vet clinics, hospitals, and crematories. Anyone who has lost a beloved pet knows that you usually get a sympathy card. How great would it be to get a book that actually helps you heal? A card is just words which provides no healing. This book provides the healing that is needed for those that are grieving. This book has helped hundreds in the past 6 months alone. Give yourself or someone you love who has lost a pet this book of healing and moving forward. I lived with the loss of my soulmate alone and grieving until I got this book. My life has changed in a positive way and I will make it my mission to get it to as many people I can because I know how powerful Jack's message is.

A friend sent me this book after I lost my dear Allie, my afghan hound, I was so absorbed with grief but began reading. This book reminds us how much our pets love us, no matter the circumstances. The book speaks to us through Jack, a happy dog and how he sees life and all the opportunities and good things it has to offer. Jack is comforting in his words of wisdom, he helps you understand the journey you will travel when you lose that precious pet. He also reminds you that love is all there is, when they are with you and after they have left this earth. It is comforting and I recommend it to anyone that has lost a pet. A lovely book that I will pass onto friends when they face that difficult time. I will read it again.

I had recently lost a very special dog that I had rescued and was struggling a great deal with the loss to the point it was impacting my life around me. A friend recommended this book and I am so glad she did. This book is for anyone that has experienced loss of a pet. There is not enough support out there for people that grieve over loss of a pet as general population look at animals just being animals, so we wind up grieving most often alone. The grief of losing a pet is real, very real. This is a must read for all who have lost .

Jack, a beloved pet writes the book about his relationship with his master, Kate. He gives insight beautifully how He came to love Kate after she picks him from a pet shelter. The understanding between the two is such a wonderful story. He sees Kate through many rough places in her life, and

she, in turn, does exactly the same for Jack. His insight into the relationships of Kate's friends with their own dogs is filled with many hints as to how we all should treat our pets, and what not to do to harm or hurt them. I read the book in one setting. I could not put it aside. It is filled with laughter and tears, some triumphs and a bit of tragedy. It also goes a long way in explaining the acceptance of gain and loss in the owning of a loyal, loving pet. A winner in my opinion. You will not forget the reading of this heartfelt story.
