What a fantastic idea - this book covers all of your pregnancy giving you medical information on your developing baby, and then goes on your journey with the baby right up until it's 1st birthday. This gives you a record of your pregnancy as well as all the firsts - 1st Christmas, 1st Thanksgiving, 1st Holiday, 1st Crawl, 1st Tooth and so on. I will treasure this forever and so wish my Mom had kept one about me as a baby! --Barbara Jones

Journals of a Lifetime. Available in English & American English.

This is a cute book but it doesn't start until week 9 and there is no actual journaling. I would have enjoyed some pages with lines just to write on it. There are like 1 page per week with a place for a photo. I was a little disappointed. Also, it came in damaged and I didn't appreciate that

I absolutely am so happy with this purchase! I wanted a book to capture all the highlights of my pregnancy. Each pregnancy is different and I wanted to share the process with my son when he is older. I don't want to be the mom who forgets to keep up with the baby book after their child's first year, so this was perfect. I am able to capture my pregnancy milestones as well as his firsts! The quality is great and the design is super cute!

It has everything I wanted. Only thing I would mention is that the place to journal is a small area, so if you want to be detailed and write a lot, there isn't much room for that. It fits my needs because its hard to write something every week. I enjoyed letting my husband fill in the "what we've been doing" section of a week every now and then. Love all the others things it asks though.....stuff I hadn't thought of.

Wish I wouldn't have gotten this for my first, instead of getting a pregnancy journal and a baby journal! This one is both in one! I love the lay out and the theme!

I have loved recording in this book! There aren't many books that do week by week and this one does. It's just enough writing; not too much/not too little.

This is a great book. It includes things about Dad and asks what we've been up to throughout the pregnancy. Only thing I don't like is that it asks you to write each week of pregnancy which was exhausting.

I loved the pages and that it gives you places to write milestones, add pictures, and capture footprints! My only dislike is the binding doesn't leave a whole lot of room when you add pictures and trinkets to the book it gets bulky.

I purchased this book as a keepsake for a memory with my first pregnancy, but ended up giving it as a gift. I also got great ideas from the book of how to create your own memories and keep track of your pregnancy.
