Awesome recipes! This book teaches you everything you need to know before embarking on a vegan diet, and more importantly, it contains a very consistent meal plan that will make your transition to a vegan lifestyle much more bearable. However, even though I'm not a vegan and I don't intend to become one, I still got this book because I was looking for some healthy vegan recipes to incorporate into my personal meal plan, and I'm very satisfied by what I got. Really worth recommending!
