Decent story about a serial killer who leaves a trademark wine glass at each murder scene. Starts out with revealing who the murderer is and his motivation for killing these women, but not much more about him after that. No four-letter words that I can recall, and no sappy romances to drag down the story. Good plot and nicely paced, but the characters were mostly one-dimensional and the conversations were often quite hokey. And the clues came gift-wrapped at just the right times to save the day. Overall, I felt as if I was reading the screenplay from a 70's or 80's police drama. Good but not great. Although not very deep, it was still interesting enough that I wanted to keep reading. That being said, I more than likely will read at least another of this series, as I now know what to expect.

An amateurish novel with which I have two complaints. 1) This is marketed as a "clean" work of fiction, so I was highly disturbed that Vanessa was forced to remove her clothes at gunpoint. This added NOTHING to the story, it had no foundation in the pre-story and only served to put a picture in the readers' minds. 2) The editing/proofreading needs to be better. A number of times the author switches tenses within the work. For example; 'he walked into the room. She is sitting at her desk'. Proper editing should have caught this highly distracting mistake.

Generally well written with varied viewpoints and unexpected twists and turns. The one thing that

kept me from giving it a five star rating, was that while billed as clean suspense, it did have some graphic descriptions of scenes that some might consider to be a bit excessive. Obviously with murder mysteries some things may be a bit unsettling. Could be a bit cleaner without ruining the plot.

People can be mean, but to allow stupid people's meanness to alter your life to a place of criminality is simply sad! Norman should have taken his friend's advice. Good story, well written and developed nicely. The number of killings during the story was a little too many, but I guess that happens in the real world. Didn't particularly like the use of tense for the narrative but a change of style doesn't hurt...was just a tad lame sometimes. I would recommend this book.

This one didn't disappoint either I'm going to continue reading and read all your books, I like the characters along with the different plots and I like to guess right along with the detectives.

BLOODSTAIN was an exciting read from beginning to end, and I found it hard to put the novel down. The novel is told from Det. Strong's point of view as he tracks a serial killer bent on revenge. The killings are bizarre, gruesome, and senseless, and Det. Strong and his partner are desperate to stop them. Det. Strong is a well-rounded character who keeps cool under stress and uses his experience to get his job done.

An exciting follow on from Where's my Son. A serial killer who leaves his victims with a wine glass beside their bodies must be stopped. The story gets personal when the murderer captures Jason's partner and it's a race against time to save her. Once again another top story by J. Dalglish.

I must say I am really enjoying this series! The stories are absorbing and the main characters are likeable (other than the villain). The stories do not have filthy language or steamy sex scenes that ruin so many of the writings in this genre. This story involves a killer who seeks women that look strikingly similar. He leaves his victims leaning against a tree, and there is a wine glass at the scene. But why? Why the wine glass? Why these women? And who is he? Unfortunately, Detective Strong's partner fits the victim's profile, and she has been taken captive. Can Jason solve this mystery in time to rescue his partner? Or will she be his next victim? Hurry, Jason. He has a timetable and the clock is ticking.....
