MILES (The Billionaire Croft Brothers, Book Two)

Synopsis

MILES is a standalone romance with a guaranteed HEA Meet the Croft brothers. Filthy rich, devastatingly handsome, and sexy as all hell. MILES I don't do emotional entanglements. And I sure as hell don't get close enough to any woman to propose marriage. But my recently deceased father wanted to screw with me, and he picked the perfect way to do it by forcing me to get married if I want to take over the family business. So I guess I'll have to just buy someone off and make her go along with the program. That's where Jordyn comes in. Financially strapped? Check. She's a receptionist I just fired when I bought out her little company. Innocent and teachable? Check. The girl is a blank slate who I can mold into perfect wife material. Sexy as hell? Double check. Every time I see her, all I can do is think about being inside her, feeling her, touching her, making her scream my name. And that leads to my biggest sin yet. Because it turns out the one thing I didn't plan for was falling in love.

Customer Reviews

I really...really hate serials (cliffhangers). I really...really hate serials that are so similar you can just change the names and you have another book. The sex was so often and so repetitive I skipped most of it. These books were cut and paste. What I really...really...really hate is when a book is so short it requires another book be added which is also a cliffhanger.

This book has a love story, but far more about the physical relationship than emotional one. The intimate scenes are very very hot, but there's little development between the two characters. I had a hard time buying Miles's declaration of love at the end and her quick forgiveness. I think had it just been a little longer, the author could have written a much better story.

Dane is the Boss and Emme's his Secretary who writes fantasies of him in her diary. He reads her diary and then can't get her out of his mind and visa versa. This is an endearing adult theme love story that will keep you turning the pages all the way to the end. I love Emme's spirit , her truth and her allowing herself to be vulnerable while working through their uncertainties. Definitely a great read.

Loved it

Miles is a very sexy book! These characters are great examples of hope and denial. I very much enjoyed the story but will have to wait until Rex's story comes out to find out what's going on and with those boy's father who knows!? Can't wait

Loved the characters Miles and Jordyn but wish their story was a little longer. Have already purchased and read the second book "Boss Me" by Eva Grayson so Miles was a quick read. All-in-all I still enjoyed their story.

I just couldn't get into it. Jordan had no backbone, it was all just so easy. Not my favorite, but I finished it. Light read if that's what you're looking for.

I thought this book was well written, very sensual and the plot was excellent. I enjoyed this book very much. I would recommend it to anyone.
