Children love music and they love activities which use their bodies. Pick Me Up! has combined the two into a CD and activity guide your children will enjoy for several years and that will serve as a teaching tool for American Sign Language, too. --cyberparent.com "The Pick Me Up! Sign2Me <sup>®</sup> Early Learning, the creator of the Sign with your Baby <sup>®</sup> program for Baby Sign Language, is a world-leading developer and publisher of tools and resources to enhance two-way communication between all children and their peers, educators, medical practitioners and adult caregivers. From Baby Sign Language to Early Literacy, Sign2Me <sup>®</sup> Early Learning uses only genuine American Sign Language (ASL) vocabulary in its early learning products and programs.

Special Ed administrators and parents often want special ed teachers to teach signing, but, of course, no one actually tells you how to do this or gives you any materials to use to teach signing. These songs are perfect for teaching signing to special needs students. Most of the songs are very funny, yet they are simple and repetitive enough to teach signing. The album does include 2 or 3 babyish songs about changing diapers and such, but the rest of the songs are perfect. In the booklet that is sometimes included (be sure that you are buying both the booklet and the CD) the pictures for the signs are included. Of course you can't sign every word of the song. You are not

supposed to. For every line of the lyrics only one or two signs need to be made. If you sing the songs and make the signs, the kids will soon be imitating you. The music is very good and very catchy. It even includes a Elvis style song which always makes my paras laugh. Such a nice, simple, fun way to teach signing.

Book appeared to be new and included CD!!!! :) Very pleased with this purchase. Of all the copies of this book I purchased, this was definitely the best! Thank you. Use 12 of the 20 songs with my preschool to 3rd grade music classes. They are fun and the students enjoy them, especially the animal songs like Tiger Walking or Let;s go to the Zoo. They also like the songs with a lot of movement like jumping up and down. Other songs are definitely for the baby in your life (like please change my diaper!) Have purchased extra copies to share with preschool and other music teachers. This copy went to preschool :) Thanks for sending such a nice one!

Good.

Seriously? I bought a this CD thinking I would get, if nothing else, 20 fun songs for my granddaughter, What I got instead was a CD with no songs at all, but just an advertisement for a website. I did get a book "Pick Me Up: Fun Songs for Learning ASL Signs", but the book alone is certainly not worth 36.95,

the cd singer was not that inspiring

I have had this for 8 years now I am a profesional sign language interpretor/teacher and have used this to teach my baby class...the songs are fun for the adults and easy for beginners. well done.

It did not come with the CD as it said and I am very disappointed. I can't find a way to get the music CD either.

I bought this somewhat hesitantly, knowing I wanted the material, but not entirely sure I would be able to stand the songs being sung. I was pleased with the quality of the music. It is fun for kids and doesn't make me want to run from the room with my hands over my ears like some children's music does. The guide is comprehensive and tells you how to use the signs depending on the child's age. If you want to teach your baby asl, then you must have this CD! :)
