Steven M. Rice is a partner in Empire Stockbroker Training Institute, one of the country's leading schools for training to the security industry. He is also an instructor at Empire and is the author of Series 7 Exam For Dummies.

I used the iPhone app for Series 7 for dummies in conjunction with the STC Materials. I passed the first time with an 84%. I found the App very helpful. The questions were close to the way that they were asked on the actual exam if not a little bit more challenging. It was nice that I could just flip through several questions on my phone while I was waiting somewhere. The test is certainly challenging. The six hours alone is grueling but if you put in the study time you should be able to pass.

I bought this book and the Series 7 Exam Flashcard Study System for my son to study for the exam. The 1001 Series 7 Exam Practice Questions he did like very much. The Series 7 Flashcards are not exactly "flashcards" as you are familiar with but more cards with a sometimes vague question that is answered essay like answer. With the flashcards, they should of created more specific questions but that being said these two tools did assist him in passing the Series 7 Exam.

While a couple of incorrectly marked answers and some typos here and there prevent me from giving a full 5 stars, these questions prepared me well for the S7 exam which I passed on the first try with an 80%. Make sure to get the companion S7 for Dummies text by Mr. Rice if only for the online practice exams to supplement your study. Good luck!

It's a good book, but if you already have a Quiz Bank (from Kaplan or STC) it's really sort of redundant.

Helped with studying.

Very well written. Easily explains difficult concepts. It goes systematically building up on basic to difficult concepts.

Great book, worth the money! Unlike that Junk "Exam Facts"!

This book was very, very, very helpful in combination with the other study materials I used. I would highly recommend this book as a study aid.
