## Customer Reviews

This is a great cookbook. A friend of mine has this book and lent it to me and as soon as I paged through the book I just knew that I wanted to get one for myself. It has really great recipes and it has become my 'go to' cookbook. So far every recipe that I have made from this cookbook has turned out perfect.

I've been using this book for 10 years, it has some amazing recipes. I highly recommend it. One of the best apple pie recipes I've ever made, the crust is incredibly easy. It's almost worth the price just for that one recipe.

I bought this book because the one I had been given as a gift disappeared. (Either my husband threw it away or I have a culinary minded thief). I replaced it because it has some of my favourite recipes in it.

This is one of my all time favorite cookbooks! I have bought several of them for gifts for friends and family. I have yet to try a recipe that I haven't liked. Our favorites that I cook on a regular basis

is the Tortellini picnic salad, the Logger's chili, enchiladas, almond bars, and the salmon! It highlights a lot of what the Northwest has to offer and is a great gift to out of town visitors!

I have one and I love it so much I gave it as a gift to my mother-in-law. She loves it too. I have made many of the recipes in this book and ingredients are easy to find, directions are clear and dishes come out great. This is my go to book for dinner parties. It always impresses.

I like this cook book very much, wish it had photos like the later one

Great cookbook. I have used this cookbook for years and recommended it to many people. I have also purchased it for gifts. You won't be disappointed by purchasing this cookbook. My husband has gluten intolerance and the recipes are easy to alter for his dietary needs.

Every recipe is to die for in this cook book. You just can't lose, I have tried almost every recipe in the book and made them again, and again. The rolled and stuffed Leg of Lamb with the yummy sauce is one of my families absolute favorites. Buy this Book!!
