Steven M. Freund attended the University of Central Florida and serves as a leader instructor of various Microsoft Office, computer concepts, programming, and Internet technology courses throughout Central Florida. An integral author for the successful Shelly Cashman Series since 2001, he has presented at the annual customer conference, the Shelly Cashman Series Institute, as well as other customer events. Mr. Freund has co-authored multiple editions of DISCOVERING COMPUTERS, Mozilla Firefox, Windows Internet Explorer, Windows, Office, and Dreamweaver books. He has also written numerous successful instructor supplements. Joy L. Starks is a Professor of Computer and Information Technology at Indiana University Purdue University Indianapolis. She has written chapters in several of the Shelly Cashman Series Office books and authored the Photoshop, Java Programming, and Microsoft Publisher series of books. In addition to speaking engagements, she hosts the nationally-renowned Tech Camp for Teachers on the IUPUI campus

each summer. For over 15 years, Mr. Schmieder has served as a computer technology instructor in adjunct and full-time capacities in curriculum instruction, corporate training, continuing education, economic and workforce development, professional development, small business, and webmaster certificate programs throughout North Carolina. His classroom instruction has served students at NC State University and many schools in the NC Community College System. He is a member of the NC Computer Instructors Association (NCCIA), NC Community College Faculty Association (NCCCFA), Textbook and Academic Authors Association (TAA), and US Distance Learning Association (USDLA). He holds certifications as a Microsoft Certified Trainer and Microsoft Office Master Specialist and is a regular presenter at local and national conferences.

Explains things good. Got here fast. Great condition

If your office installs Microsoft Office 2016, this is the book for you. The software is brand new and the book is totally new. With seven modules, 432 pages, you learn: Office 2016, Windows 10, creating a worksheet and a chart, formulas, functions and formatting, working with large worksheets, charting, what-if analysis, financial functions, data tables, amortization schedules, working with multiple worksheets, workbooks, creating, sorting, querying a table, creating templates, importing data, working with SmartArt, images, screenshots. This is the Intermediate edition. I have used Freund/Starks Excel 2013 book for many years, in my one-credit course at a local College. Students major in Liberal Arts, Social Science, Math, Political Science, Psychology, Nursing, and a few in Business. Did they do a good job? With the step-by-step outline of this book, yes they did. Many are working in offices using Excel.
