Bear Mountain Baby: Shifter Romance (Bear Mountain Shifters)

Synopsis

He might be the sexiest bear on the mountain, but he doesn't want to raise another man's baby! Ian's pissed my brothers let this runaway bride into our life. I can't be responsible for a pregnant lady, no matter how hot she is. Protecting her is a fool's errand. I've learned from experience. My life is better without a woman in it. And her baby? Screw that. I want nothing to do with them. Except maybe a one night stand. Olivia has to escape my future husband. I can't let him harm this baby like he harms me. And now this mysterious man that is the only one that can protect me, wants nothing to do with me. He is cold and distant. The last thing he wants is to be responsible for another man's child. But when we touch the chemistry cannot be denied. I can't stop thinking about him being inside of me. But how do I get inside of his heart? **This is a novella length 30,000 word novel, standalone shifter romance. No cliffhangers. HEA guaranteed. For a limited time, I've included bonus stories. Customer Reviews

Oh this was a beautiful story. I was happy to see another story about Bear Mountain but sad about one of the brothers and how his life took a detour. Ian had doing his mate to only loose her before

they could enjoy a life together. Then about comes Olivia, a pregnant human who was running from her fiancé and a mafia hitman. She finds herself at the compound of Bear Mountain and is begging for help as her first and his going are stalking her. There she meets Atticus and Tessa and there their twins along with the other brothers, including Ian, who is extremely taciturn and antisocial. But for some reason, Olivia is fascinated by him. Due to a turn of events, Ian must take Olivia and her son away from the compound where her ex had found them. The road to love is bumpy and made more so by Ian's attitude and Olivia's ex. Fantastic read! Was happy to find out more about the lives of the bear shifters we had met earlier! A great book!

I read the first book with Atticus and Tessa and was looking forward to each of the guys finding their mates. So, I was surprised that two of the brothers had found their mates and were expecting babies. I was not surprised that the family saved Olivia from imminent death. I actually laughed when she came to and saw the brothers standing over her and she started screaming. Three huge men standing over me when I open my eyes would scare the heck outta me too. I was confused about her and Brody's actual status. She said she left him at the altar, more or less, but when he went to get her back he called her his wife and further on Ian, having a conversation with himself, says she's married. She really was blessed with Noah. Such a calm and happy baby. I loved, loved the ending. There is so much I could say about that, but it would spoil the story.

Wonderful story, enjoyable from the first page on. Any of them Sexy Swift brothers can protect me anytime, lol! It's always the quiet brooding one to watch out for though and Ian definitely fits the bill in this story. Olivia starts the story running for her life. She has no idea she's running from mobsters straight into a bear's lair so to speak. And omg thank goodness she does. Mystery, Danger, Mobsters and Bears will keep you entertained. And it ends with a Great HEA. Mature readers will enjoy the steam level at the end. I voluntarily read and reviewed an Advanced Reader Copy of the book by its author. Reviewer for Nook Books and More Blog. R\R 8/20/17

I was an arc reviewer on this book. I thought the story was interesting and kept me involved. I think the author has a great writing style and the characters were complete. The plot was a little different than most having Olivia pregnant almost on her wedding day running from Brody a thug with the mom. She winds up at a compound of bears on the story progresses from there. The other main character is Ian who has little time to care about a runaway pregnant woman. The story progresses with some twists and turns and you'll have to read to find out if there was a happy ending, enjoy

Hot shifter read. Olivia and Noah their chemistry will burn you. Olivia 8 months pregnant running away from her mob soon-to-be husband finds refuge in a shifter camp. One of the shifters being Noah who is very standoffish and ignores her. But when it comes down to it Noah is the one that has to be with her alone and protect her. But soon their feelings for each other take over. Hot smoldering sexy scenes willing engulf you. You must read this book to find out what happens. It will be very worth your wild. I am volunteering to leave a review for an arc of this book.

There were other stories in my copy, but I'm only gonna review the title book. Bear shifters are awesome. I haven't read any other books in this series, so i can only speak to this story. It's technically well written. My issues are all small and deal specifically with personal pet peeves. I've said it before and I'll undoubtedly say it again. Alphas are Alphas because they have the strength, the control, and the power to use both appropriately. He's more Beta than Alpha, but his hot and cold was a bit much for me. Decent story. Like not love.

While it doesn't always have the best timing, love always seems to be right on time. Olivia absolutely won my heart, and how can you not have sympathy for her and her baby after what she's gone through. Ian is his strong alpha self, while being a grumpy pants. I understood his struggle as well. This is an incredibly well-written story with wonderful characters. The sailing is not always smooth, but I was just so happy that this little family finally gets the happy ending they deserve. This is a voluntary review of an advance reader copy.

I was given this book as an arc read but I volunteered to write a review Not wanting to raise her child around the influence of the mob, Olivia chooses to run, but couldn't hide for long. Ian had had heartbreak after heartbreak and the last thing he wanted was to get involved with someone who came as a ready made family. This books contains some violence, abuse, awakenings, love and steamy sex. I recommend it to any and all PNR lovers.
