Seashore (One Small Square)

Synopsis

From sandy beaches to rocky cliffs, the place where the land meets the sea is an amazing habitat. While exploring at the shore or reading at home, children ages 7 and up will be astonished by the richness and variety of creatures at the water's edge. Beautifully illustrated, with a picture reference and glossary, *Seashore* is just one volume from the critically acclaimed One Small Square series of hands-on science books, now available in paperback.

Customer Reviews

Whether it's a sandy beach sloping gently into the sea. . .or a steep, rocky cliff pounded by crashing waves. . .there's more going on at the shore than meets the eye. A host of fascinating creatures live at the place where land meets sea--from the mysterious ghost crab to stinging jellyfish. Spend a day at the beach, or a rainy day at home, with this up-close look at one small square of a rich and exciting habitat. *Seashore* is just one of the exciting, vibrantly illustrated volumes in the critically acclaimed One Small Square series of science and nature books for children ages 7 and up. Each book includes: Stunning full-color illustrations of each habitat and its creatures; Motivating experiments and activities, along with clear, diagrammed instructions and safety tips; A picture field guide of the habitat; A glossary-index and resource list. One Small Square an eye-opening series originally published in hardcover--puts the whole world in perspective for children, one small cross

section at a time. Each book is a thrilling, up-close encounter with mammals, insects, plants, birds, fish, amphibians, bacteria, and the ecosystems in which they live. "Science education at its best."--Science Books and Films. Donald M. Silver is the author of more than 40 science books for children and teachers alike. In addition to the award-winning One Small Square series, he has written The Animal World, Why Save the Rain Forest?, Extinction Is Forever, and The Dinosaur Activity Book--all illustrated by Patricia J. Wynne.

Donald M. Silver is the author of more than 40 science books for children and teachers alike. In addition to the award-winning One Small Square series, he has written The Animal World, Why Save the Rain Forest?, Extinction Is Forever, and The Dinosaur Activity Book--all illustrated by Patricia J. Wynne. Patricia J. Wynne's illustrations have also appeared in Scientific American, Natural History, and The New York Times as well as in the highly praised books Hungry, Hungry Sharks, and The Human Body. Both the author and illustrator live in New York City.

I love this whole series, my children also enjoy them. The artwork is beautiful and engaging and they really motivate us to get out and learn about our world.

I used this book to teach my second grader about the shore. Then we went to the shore and experienced it and collected samples. We had an awesome fun learning experience. This is my favorite one out of the series.

Great for grandkids who visit the beach often. They have learned there is more there than meets the eye.

I loved this series for my Daughter and have now started purchasing it for my Granddaughter.

My kids love this book. It is informative and keeps them very engaged in the lesson. We will be purchasing other books in this series.

Met all my expectations. Thank you.

Absolutely beautiful book. Stunning art work. I recommend all of the books in this series.

good product with high quality. just OK . send to my son, I received this product on time and in very safe packaging. Cutting a watermelon was the first opportunity to use it.It sliced through the whole melon easier than any product I've owned before. Can't beat that. I'm happy. good .
