Sara Bliss is a freelance journalist who covers design, travel, shopping and entertaining. Her work has appeared in House Beautiful, Country Living, Design Times, and Boston Magazine. She is a contributing writer for City Magazine. She is particularly enamored with global design as a result of travels throughout Southeast Asia and South America. Exotic Interiors is her first book.

I really like this book! Not only did it give me some new decorating ideas, but it also took me on an adventure while browsing different decor in various countries. Exotic decorating can be expensive and difficult at times, but this book offers ideas and suggestions that can take that away. I would also recommend it to a Beginner Designer.

SOUNDS brilliant doesn't it? Who doesn't want to bring all the beauty and awe and memories of their global travels into their homes to interact with daily? This gives no useful, thoughtful, original ideas. It just blabbers to make a book. If you haven't got anything to say, you just like real style instead of all this mass produced cookie cutter crap, then you need a lot of photos and these are mediocre and too few to make up for the severe lacking in the writing section.

Exotic Style: Decorating Ideas From Around The World by freelance journalist Sara Bliss is an amazing, full-color photographic showcase of an incredible diversity of picturesque living atmospheres created from cultures and styles found around the world. The text addresses each new concept drawn from a different corner of the globe, and how it can be applied to create varied yet memorable results. There are design ideas, tips, and examples fro bedrooms, bathrooms, living rooms, dining rooms, kitchens, outdoor rooms, patios and pools. Exotic Style is very highly recommended reading for interior designers of all experience levels ranging from the amateur do-it-yourselfer rearranging the look of their home or apartment, to the professional in search of inspiration for commissioned domestic interior designs.

This book has become a staple in my day to day life. Whenever I have a problem trying to figure out if something matches with the room then I just turn to this book and all the answers are right there in front of me. For anyone who has a house that they constantly decorate, I would definitely recommend this book. It is a must have and a must read. Sara Bliss has an amazing perspective on the world of design. The world will be seeing great things from this stunning author!!

Sara bliss has a taste for style, specifically exotic style. This book will take you on an adventure into vibrant worlds of beautiful color and creative design ideas from around the world. If you want to add some spice to your life and your home, this book is for you! Why have white walls and a typical existence. A simple touch of color and elegant design can change all that and this book can show you how to do it right! So spice it up, don't just exist, you only live once.

I think that anyone who has the slightest interest in decorating the interior or outdoor spaces of their homes should read this book. It is full of interesting ideas on how to decorate with exotic furniture, textiles, wallpapers, lighting, table settings, etc. Lots of good instruction what to do, what not to do and where and how to shop for those exotic treasures.

Fabulous book on decorating - using global style. Richly illustrated with numerous, wonderful photos. Offers fresh ideas and many suggestions on indoor, outdoor, every area of the home, how to incorporate eye-catching global accents and color palettes, offers numerous ideas to update a room via a major or minor makeover. A wonderful, up-to-date sourcebook of global style.

This is one of my absolute favorite books for incorporating ethnic and global items into your decor. I go back to this book over and over again and I feel like I always find something new.
