Intermediate Algebra For College Students (9th Edition)

Synopsis

Through many successful editions, the Angel team has developed a text that students can read, understand, and enjoy. They've done this by pairing clear explanations (in short sentences!) with detailed examples and thorough exercise sets. Note: You are purchasing a standalone product; MyMathLab does not come packaged with this content. If you would like to purchase both the physical text and MyMathLab, search for: 0321927370 / 9780321927378 Intermediate Algebra for College Students Plus NEW MyMathLab with Pearson eText -- Access Card Package Package consists of: 0321431308 / 9780321431301 MyMathLab -- Glue-in Access Card 0321654064 / 9780321654069 MyMathLab Inside Star Sticker 0321927354 / 9780321927354 Intermediate Algebra For College Students MyMathLab is not a self-paced technology and should only be purchased when required by an instructor

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- 0321927370 / 9780321927378 Intermediate Algebra for College Students Plus NEW MyMathLab with Pearson eText -- Access Card Package Package consists of: 0321431308 / 9780321431301 MyMathLab -- Glue-in Access Card 0321654064 / 9780321654069 MyMathLab Inside Star Sticker 0321927354 / 9780321927354 Intermediate Algebra For College Students

Customer Reviews

Allen R. Angel received his AAS in Electrical Technology from New York City Community College. He then received his BS in Physics and his MS in Mathematics from SUNY at New Paltz, and he took additional graduate work at Rutgers University. He is Professor Emeritus at Monroe Community College in Rochester, New York where he served for many years as the chair of the Mathematics Department. He also served as the Assistant Director of the National Science Foundation Summer Institutes at Rutgers University from 1967-73. He served as the President of the New York State Mathematics Association of Two Year Colleges (NYSMATYC) and the Northeast Vice President of the American Mathematics Association of Two Year Colleges (AMATYC). He is the recipient of many awards including a number of NISOD Excellence in Teaching Awards, NYSMATYC's Outstanding Contributions to Mathematics Education Award, and AMATYC's President Award. Allen enjoys tennis, worldwide travel, and visiting with his children and granddaughter.

Dennis Runde received his BS and MS in mathematics from the University of Wisconsin-Platteville and Milwaukee, respectively. He has a PhD in Mathematics Education from the University of South Florida. He has been teaching for twenty years at State College of Florida, Manatee, and Sarasota Counties and for ten years at Saint Stephen's Episcopal School. Besides coaching little league baseball, his other interests include history, politics, fishing, canoeing, and cooking. He and his wife Kristin stay busy keeping up with their three sons—Alex, Nick, and Max.

It arrived a little late for my class although this book is perfect I recommend also buying the solutions though, for sure

This edition was more complex than ed8. I found working the problems sometimes frustrated me; losing my concentration. This is a very important class as it is the last one for me to graduate.

I purchased this book for my college math class. It was cheaper than the college bookstore. I have a hard time with math but this book really lays out the problems for you step by step and gives plenty of examples and practice work.

The textbook came in good condition I was able to take it with me to class by the second week of class, which was great just what I needed.

Book came in good condition and is very resourceful.

Came in good condition

The book came in better conditions than what I expected, basically new.

The book I smells super bad. i would return it and switch it but i got my books late and classes already started. So now I'm stuck with a smelly book.
