Customer Reviews

I enjoyed reading this book and trying a few recipes most didn't come out very well i am not sure what i did wrong but when we tried it just tasted so bitter like it was missing some things too add to it. I decided maybe i should play around with the recipes maybe i will get it right soon. There's still so much more to check out so i am not giving up till i find the right one to enjoy.

Five stars? Is that all I can give? Really, this book deserves so much more. The techniques provided on these pages, as well as the suggestion it gathered, are worth far more than five stars and I would consider this book to be a great bargain at twice the price. Keep up the excellent work, Henry Thompson .Highly recommended.

Great to have an idea of making flavorful drinking water. I like to use these recipes with natural ingredients. To help energize and freshness of my body.

Thanks for this! I'm getting slimmer more fit and healthier now. Easy recipes to follow and prep. I really like the breakfast recipes
