Tuttle More Chinese For Kids Flash Cards Simplified Edition: [Includes 64 Flash Cards, Audio CD, Wall Chart & Learning Guide] (Tuttle Flash Cards)

Synopsis

A fun and kid-friendly introduction to the Chinese language! The Tuttle MORE Chinese for Kids Flash Cards (Simplified Character Edition) kit is an introductory Mandarin language learning tool especially designed to help children from preschool through early elementary level acquire basic words, Chinese characters, phrases, and sentences in Chinese in a fun and easy way. The flashcards can be used as a learning tool in a classroom setting, at home, or anywhere that learning takes place, and can easily be taped around the room for an interactive way to learn Chinese. The set contains a total of 64 words, which all represent a range of sounds in Mandarin Chinese, organized into thematic categories, including: Going Places, At My House, Things I Like to Do, Actions, Opposites, Weather, and Nature. All of the words are illustrated – the pictures serve as effective visual aids to help children learn and remember each word's meaning. Words often reflect cultural objects and items and can be studied in any order. Learners may focus on one theme at a time or mix them up for a little more variety. Also included in this kit is an audio CD which provides native pronunciation of the words, and sample sentences for practice – sentences that children would use in everyday life. Songs and other activities are also included on the free audio CD. Finally, the kit also includes a wall chart featuring the front of each card for kids to review and a learning guide for teachers and/or parents with tips, activities and more! If your child is really interested in learning more words, and you missed the first kit, check out the Tuttle Chinese for Kids Flash Cards (Simplified Character Edition) kit (978-0-8048-3936-5).

Well made cards, I really appreciate the fact that they also include a CD and a poster that includes all the cards. The images are easy to understand, the CD not only pronounces the words in the front, but also the two sample sentences in the back. Bought it for my two year old, she loves the pictures. This product has proved to be a great learning tool for her. Bonus!! They also include children's songs at the beginning of the CD, my daughter loves to sing along with them. Thank you for a great product.

This was totally a fun system for learning basic chinese symbols. I have looked at other methods that seem boring and complex. I can't figure out what the author did, but learning here is fun. My 6 y.o. son and I practice at bed time and he loves it. Strangely, I learn symbols faster than he does, but I forget them faster. He retains what he learns much better than I do. Our goal is to be "literate" in chinese within a few years, using this as a starting point. I think it is possible. The amazing thing about Chinese is that you need to understand the radicals as well to fully appreciate the the words you read. My understanding is that in simplified chinese the connection between radicals and the meaning of the word is not as strong, which is unfortunate... They should really make an iPad app that would help you learn to write Chinese as well...

My friend loves it. He listens this during his commute.

I really like this and the poster that you receive with the cards is a bonus. The song cd is good for both fun learning but, also more seriously for recognising that as a tonal language Chinese often uses words that flow

I bought these for our Godson as a gift for getting his black belt in Karate. He was very interested in learning Chinese. His parents tell us that he tapes the flashcards all over the house, and he wrote us a thank you note using Chinese words he had learned. Sounds like the flashcards are serving their purpose and are fun.

Really usefull for those who are starting to learn chinese. kids and adult may use it

This is great for the whole family. The chart and CD work great together for a visual and hearing experience. Great for all ages including adults trying to learn. The paperback book with characters is wonderful as well, can recommend both.

What a wonderful tool for teaching or learning. My 14 year old children are learning mandarin at school but wanted extra aids for at home.this product comes with a dvd ,a poster and delightful,easy to use flash cards. It has renewed their enthusiasm for a difficult subject.
