Carrie Green is a female entrepreneur who started her first online business at the age of 20, and within a few years grew her business to global level. In 2011, after feeling isolated running her

business, Carrie started the Female Entrepreneur Association – an online platform now counting 270,000 members, which inspires and empowers women from around the world to build successful businesses through videos, classes, and an online community. Carrie has been recognized as an entrepreneurial “rising star” under the age of 30, and was awarded Entrepreneur’s Champion of the Year in 2014 at the Great British Entrepreneur Awards. www.femaleentrepreneurassociation.com

Blown away by this book, it is perhaps my all-time favorite self-help/entrepreneurial book and I am going to read it many times before I am through! I had to get both the audio and paperback versions to use together, and the down to earth insight has me ready to go out and tackle the world. I know Carrie caters to women entrepreneurs (and yes, I am a man), but I would have to place her right at the top of my go to inspirations. Down to earth, easy to understand, easy to relate to, and all around sound advice and inspiration. Sorry ladies, but as a guy I think this book and this woman, ... ROCK!

I appreciate Carrie Green and her teachings, but initially I was hesitant to purchase this book. I thought to myself do I really need another book with more information on how to be a successful entrepreneur. Now don't get me wrong I can be an information junkie, but sometimes that's all it is information without practical instruction. Well I gave in and decided to purchase this book and I am very glad I did. First of all Carrie infuses her story throughout the book, which makes it very relatable. The chapters are short and to the point and have practical action steps for you to take. Not only does Carrie discuss the nuts and bolts on how to start, build and grow your business she also has several chapters on mindset and self-care. Things us entrepreneurs tend to forget about. Throughout the book Carrie uses words to celebrate and encourage you. It is as if she is right beside you cheering you on. Helping you to believe you can have a successful business. I highly recommend this book for all entrepreneurs no matter what stage you are in their business. It's a book I will read often.

I've been stuck in a rut for years, held back by self doubt and fear. The book begins with Carrie experiencing the same thing. The procrastination, the avoidance and resistance. But, she doesn't just commiserate with my flaws and mistakes, she proceeds to give a step by step plan to overcome the resistance, to take action and to finally succeed. To me, this book and her advice is an invaluable tool, a road map to go from the place where you are stuck and can't seem to get motivated, to crossing the finish line achieving your dreams at last.

When I was ordering some books for a work project this popped up as a recommendation. I bought it and didn't think much past that. I read a lot of books on business and women in business. This one is the real deal. It is not filled with fluff and false hope. It is filled with great tips and information packed. She is practical, truthful and gave me so many great useful tips for my next project. If you are in business and struggling, get this book. If you are thinking of starting a business and are afraid, get this book. She covers it all. My only complaint. The author used a link shortener to link her resources she offers and that link is no longer available. So, I have not been able to find those yet.

I purchased my copy of She Means Business via pre-order. I have been amazed by the wealth of offerings they Carrie Green gives in addition to the purchase of the book. I began with the small program that helped me to prepare myself prior to receiving and reading the book. The format of the book has allowed for me to take my time looking deeper into my business in order to strike out on a healthy path for both me and my clients. While many might say that the techniques in this book sound familiar, Carrie put her own spin on each technique in order to help you evaluate from a new perspective. In March, I began the 28 day challenge which expands further on the book. I feel that because I embarked on this journey with She Means Business, I am building a stronger foundation for my business, myself, and my clients. I highly recommend Carrie Green and She Means Business to anyone reading these reviews. You will definitely reap the benefits of her wisdom and positivity!!

She means business gets down to business. This is one of the best business books I've read in a while. It's not just a business book, but a how to create the life of your dreams book. It's not all just business, there is a lot of great useful tips and ideas for asking the universe for what you want, visualization and manifestation techniques that are complete winners. I'm not talking woo-woo, I'm talking common sense opening up your mind and allowing greatness to come in. This book was exactly what I needed at this time in my life. The book is broken up into three main sections. Part 1: She shows up for her dreams (Creating the life of your dreams) - the stuff I talked about above. Visualizing and showing gratitude for what you want your life to be like. Part 2: She gets herself out there to shine (How to create a business) - Business principles, your mission, your why, your audience, engaging your audience, expressing your brand, about page, serving your audience, adding value, being you, building your audience, Facebook, money blocks, making money, growth. Part 3: She's unstoppable: Honoring the process, having persistence, keeping the faith,

practice like crazy, consistency, avoiding overwhelm, growing your team, finding mentors, listen to yourself, celebrating wins, take care of yourself, resisting the urge to put things off, I love all the examples of real life entrepreneurs in the book, especially because I know who most of them are and have also watched their business being built from the ground up. I loved the book so much I even bought it on Audible. It reminded me why I love books that the authors read themselves. So much of Carrie's spirit comes through in her reading. I've been listening to it on my drive to and from work. Seriously, I haven't been this excited about a book.....let alone a business book in a long time. This book is like a self-help book that helps you become a better you and a business book all rolled into one amazing experience. I highly recommend.
