Introduction To Physical Anthropology

Synopsis

INTRODUCTION TO PHYSICAL ANTHROPOLOGY, presents the most up-to-date, balanced, and comprehensive introduction to the field, combining an engaging writing style and compelling visual content to bring the study of physical anthropology to life for today's students. With a focus on the big picture of human evolution, the 15th Edition helps students master the basic principles of the subject and arrive at an understanding of the human species and its place in the biological world. It continues to keep pace with changes in the field, with new material on genetic technology and other topics reflecting recent scientific findings, including recent fossil discoveries as well as ancient DNA research on Neanderthals, Denisovans, and modern humans.

Book Information

Paperback: 576 pages

Publisher: Wadsworth Publishing; 15 edition (February 2, 2017)

Language: English

ISBN-10: 1337099821

ISBN-13: 978-1337099820

Product Dimensions: 8.4 x 0.9 x 10.8 inches

Shipping Weight: 2.3 pounds (View shipping rates and policies)

Chapters begin with a chapter outline to aid in

understanding the organization of topics within each chapter. Learning objectives at the beginning of each chapter emphasize the broad themes covered, and help you focus study time.

"How Do We Know?" chapter-concluding sections summarize the basic scientific information used in drawing accurate conclusions about our evolutionary history. Critical Thinking Questions at the end of each chapter reinforce key concepts.

Perform better with MindTap

The more time spent in MindTap,

the better the results Using MindTap throughout your course matters Students using apps perform better on assignments

Robert Jurmain received an A.B. in Anthropology from UCLA and a Ph.D. in Biological Anthropology from Harvard. He taught at San Jose State University from 1975 to 2004 and is now professor emeritus. During his teaching career, he taught courses in all major branches of physical anthropology, including osteology and human evolution, with the greatest concentration in general education teaching for introductory students. His research interests are skeletal biology of humans and non-human primates, paleopathology, and paleoanthropology. In addition to his three textbooks, which together have appeared in 35 editions, he is the author of *STORIES FROM THE SKELETON: BEHAVIORAL RECONSTRUCTION IN HUMAN OSTEOLOGY* (1999, Gordon Breach Publishers), as well as numerous articles in research journals. Lynn Kilgore earned her Ph.D. from the University of Colorado, Boulder, where she now holds an affiliate faculty position. Her primary research interests are osteology and paleopathology. She has taught numerous undergraduate and graduate courses in human osteology, primate behavior, human heredity and evolution, and general physical anthropology. Her research focuses on developmental defects as well as on disease and trauma in human and great ape skeletons. Wenda Trevathan is regents' professor, emerita, of anthropology at New Mexico State University, where she taught from 1983 to 2009. She is a biological anthropologist whose research focuses on the evolutionary and biocultural factors underlying human reproduction, including childbirth, maternal behavior, sexuality, and menopause. Her primary publications include works on the evolution of childbirth and evolutionary medicine. Her recent books include *ANCIENT BODIES, MODERN LIVES: HOW EVOLUTION HAS SHAPED WOMEN'S HEALTH* (2010, Oxford University Press) and *COSTLY AND CUTE: HELPLESS INFANTS AND HUMAN EVOLUTION* (2016, SAR/UNM Press). She is also the Editor in Chief of the *INTERNATIONAL ENCYCLOPEDIA OF BIOLOGICAL ANTHROPOLOGY*, which will be published by John Wiley and Sons in 2018. She has taught courses in physical anthropology, nutritional anthropology, medical anthropology, evolutionary medicine, and anthropology of reproduction. Russell L. Ciochon is a leading paleoanthropologist specializing in primate and human evolution in Asia, as well as the geochronology of Asian Plio-Pleistocene sites. He earned his Ph.D. from the University of California, Berkeley, and teaches at the University of Iowa, Iowa City, where he is Chair of the Department of Anthropology. He teaches courses in hominin and non-human primate evolution, as well as primate behavior, ecology, and functional anatomy. Besides co-authoring more than one hundred technical articles, he has also co-written two popular books:

DRAGON BONE HILL: AN ICE AGE SAGA OF HOMO ERECTUS (2004, Oxford University Press) and OTHER ORIGINS: THE SEARCH FOR THE GIANT APE IN PREHISTORY (1990, Bantam Books). Eric Bartelink received a B.S. in Anthropology from Central Michigan University (1995), an M.A. in Anthropology at California State University, Chico (2001), and a Ph.D. in Anthropology from Texas A&M University (2006). He has taught for eleven years at California State University, Chico, where he is currently a Full Professor and Director of the Human Identification Laboratory. He teaches courses in introductory physical anthropology, human osteology, human growth and development, human origins, bioarchaeology, forensic anthropology, and statistics. His research interests focus on the bioarchaeology of Native California, dietary reconstruction using stable isotope analysis, and applications within forensic anthropology. He is a co-author on ESSENTIALS OF PHYSICAL ANTHROPOLOGY (10e, Cengage Learning), FORENSIC ANTHROPOLOGY: CURRENT METHODS AND PRACTICE (2014, Academic/Elsevier Press), and has authored and co-authored numerous articles in scientific journals.
