âCraig Gross, founder of XXXchurch.com

âWe purchased 9,000 copies of Shauntiâs book, For Women Only, and gave one to every woman in our congregations as part of a special Sunday morning event. I interviewed Shaunti on stage during all our worship services. The

response was incredible. She has an engaging, compelling way of presenting her findings about how men think. It helped open the eyes of women to the real needs of the men in their lives, and it gave men a common language to use to talk about these things with their wives. I urge churches and other groups to give her the opportunity to share this message.

I am in my 30s, been married for 4 years, and am a full-time working mom. My marriage has been in distress, and my husband refused to go to counseling. I purchased this book in hopes of finding some guidance. The book is a very quick read. I was surprised at how small the book actually is; however the book is loaded with information. I liked that it was written from the women's perspective and that the author provided stories about her struggles with her husband. The information was very relatable, and I definitely had a couple of "ah-ha!" moments. There were passages that seemed to describe my husband perfectly. I am not very religious; however I was not turned off by the biblical references. My question is, now what??! I am not sure how to implement changes to improve my marriage. The book explains that a husband absolutely needs to be respected and affirmed. There was a little guidance, but I need help with how to really implement changes. The lack of practical tips left me disappointed, but overall I thought the message of the book was very helpful. The survey results are undeniable and help me understand the importance of respect in a marriage. My husband and I are stuck in a cycle of lack of respect on my part and lack of love on his part. I am very hurt and angry, but I want to better my marriage. I am going to try the following actions for the next 30 days to see if there is an improvement. I have not talked to my husband about this book yet, I am going to wait to see if I get results. My 30-day action plan: 1) Always accept his opinion and judgement on a matter and only offer my opinion if asked 2) Initiate casual physical connections at least once a day (ie: rubbing shoulders, sitting next to on couch, etc.) 3) Initiate sex at least once a week I will give an update regarding the results. I am unsure about item #1 above. I consider myself a modern feminist; however I know that my husband thinks that I am critical and demanding. I am hopeful that by acting more respectful that he will in turn actively seek out my opinion so we have an equal relationship. I certainly don't have anything to lose at this point. I already thank him on a regular basis for important little things that he does to help with our child and around the house. I also tell him that I love him and always ask him about his day. (Wish he would do the same for me!) Any other tips would be appreciated! UPDATE 05/08/2013: We are definitely in a much better place in our relationship now compared to 30 days ago. I did not follow my plan exactly as I had intended, but I did make a lot of changes. I also learned a lot about how I treat my husband and how I need to continue to change. Comments about my specific action plan steps: 1) I often forgot that my plan was to always accept his opinion. I need to work on this area. I have found that if I carefully listen to what he has to say, acknowledge what he has said, and then offer my two-cents - he is much more open to my opinion. Or if I wait awhile and then later offer my opinion, that works too. My DH just really wants to feel that he is heard and that his opinion is respected. 2) I often forgot to initiate casual physical connections until the very end of the day. I admit that it felt like a chore on my "to-do" list

which is really horrible. It made me realize how much our relationship has changed from our early courtship to now being parents of a toddler. I am working on being more casually physical, and my DH seems to really appreciate it. He has been reciprocating quite a bit.3) I only did this once the whole month. Epic fail on my part. I am committing to implementing this step during the next 30 days. Although I was not successful at carrying out each action step - it did open my eyes in a big way. I realize that I can make a lot of positive changes in our relationship. I also realized that I critique my husband A LOT about things around the house that need to be done or should have been done differently. He NEVER critiques me. Literally, never. I would hate to be treated the way I treat him. So I am definitely working on making changes in that area too. If I continue to be aware of my actions, I am confident that things will continue to improve. I plan on talking to my DH at some point about the book, but I am waiting until we are on more solid ground.

I have a very good relationship with my fiancÃ©, we have been together for 2 years and we thought we should read some books and try to prepare ourselves because we have seen so many unhappy marriages, this book is amazing and it does tell you so many good tips! I notice so much now with other people's relationship and how what they said might make the guy feel. For sure it's a book that every one should read it can only help your relationship. Now why I gave it four stars was for a few reasons one, she doesn't tell you much on how to improve or what you should practice or do in order to better it, she just informs you about men and how they feel and their inner life's. Second thing is that this book is based on surveys and her husband pretty much, all men are not the same and I think sometimes she would forget to say that and some chapters for example the one about how all men look at girls and they can't help but have images lingering, I believe that not all men are this way and I don't believe it's hard for them not to look I mean all humans look at everything they notice things but not all men are "pervs" a lot of the things here did not apply to my fiancÃ© and she did make some chapters more dramatic than they should be. Last thing would probably be how she makes most men sound so different from woman and I don't believe that completely I think we both have the same needs but some needs are more strongly needed by the other person than yourselves but every guy is different so maybe your man would want you to be comfy at home and wear pajamas and no make up (that's how my guy always says he wants me cause he wants me to be happy and comfy so we can cuddle) and maybe he wants you all dulled up so they feel special and loved that you are taking care of yourself more. It all depends on the man you have, what I did was I marked a lot of things I was reading and asked my fiancÃ© if he thought differently or if it was true to him and that's what I followed. I do recommend this book I think it wouldn't hurt it would only

help trust me it's a great book, good luck with everything girls:)P.s one thing that got me every time was how she made it seem that if you were a Christian man who went to church regularly you must be a devoted and loving husband and that's just not the case cause he could be unhappy and not care about his wife but care about God a lot. Just something to think about when you are reading the book, just remember you are trying to figure out your man not all the random guys she interviewed.

Personally I like this book & what it has to offer. However, I believe for most average couples it's a bit too analytical & wordy. I was reading it from the perspective of a facilitator seeking teachable material for struggling or young married couples. This would be SUPER if the authors could take this info & create a 4-8 week bible study to go along with it. The current video & curriculum is not ideal in my opinion. I am not impressed by the cheesy videos that I previewed. Despite that...The content is SO GOOD. Every newlywed or newly engaged couple should read their copy! (if you didn't know, there is a partner book for the guy called "For Men Only...") As a facilitator I also think having a well put together, easy to use App or website is EXTREMELY important. This lacked in that area as well.

OK. I'm a retired RN. Was happily married for 37 years before my husband died of cancer 7 years ago. The single life was a mystery to me, but I learned a lot about it through reading books like this. I thought I knew plenty being married so long and having such a wonderful marriage. But, there is always more to learn. I would recommend this book to every married woman out there. Yes. I would. Presently, I am very happy in a relationship with a kind and sweet, intelligent and fun widower. Life is good. This book is also good.

We recommend these books to every one we know. My husband required our daughter and future son in law to read them before their upcoming wedding. So so so good to know how the other gender thinks about things. When my husband and I went through a very difficult season a few years ago, these were a lifeline!

Shaunti is an excellent researcher. I've read this and several other of her books. She has a good insight into understanding your man. If you are getting married or are married, you will find this book most useful.
