# Workbook/Lab Manual To Accompany Yookoso!: Continuing With Contemporary Japanese

## Synopsis

Yookoso!, meaning welcome in Japanese, is the second volume of a two-volume series for beginning Japanese courses. Based on modern principles of second-language acquisition, it was the first beginning Japanese text to integrate the teaching of all four language skills (reading, writing, listening, speaking) and to be accompanied by a full complement of ancillary materials. Grammar is treated as a tool for developing the ability to communicate in Japanese, not as the focal point of the text. The illustration program (photographs, line drawings, realia) and the two-color, hard-cover format is unique in this field, providing an attractive context for language learning.

## Book Information

Paperback: 296 pages

Publisher: McGraw-Hill Education; 3 edition (April 27, 2006)

Language: English

ISBN-10: 0072493399

ISBN-13: 978-0072493399

Yookoso!, meaning welcome in Japanese, is the second volume of a two-volume series for beginning Japanese courses. Based on modern principles of second-language acquisition, it was the first beginning Japanese text to integrate the teaching of all four language skills (reading, writing, listening, speaking) and to be accompanied by a full complement of ancillary materials. Grammar is treated as a tool for developing the ability to communicate in Japanese, not as the focal point of the text. The illustration program (photographs, line drawings, realia) and the two-color, hard-cover format is unique in this field, providing an attractive context for language learning.

Even my professor said this isn't the best textbook, but since it is required by the school....

I used this textbook for my Japanese classes at my University. I love the language and this textbook is just perfect. I'd most likely buy this one even if wasn't taking a class. The organization and vocabulary are displayed intellectually with perfection. It's a bit pricey but this will last a lifetime!

It's even better than Vol1. This textbook has solid grammar explanation including good cultural background. Nice exercises. As a Japanese teacher, I'd choose this textbook.

I used this book in college and I was not thrilled with it. Everything is beyond crammed in the study book. The lab manual is too vague and does not enforce what the beyond crammed chapters are about. As a college graduate with my degree in Japanese, I would not recommend using this workbook for personal growth in the language. It is a good stepping stone to the Professor's lectures. I've learned more from my professors in class than from this composition book and study book. If this is being used in your college class 200-ish level, be prepared for a cram shock. The only way to truly learn this language is pay attention to your Prof and ask tons of questions like I did. Always make kanji and vocabulary cards too!

Great way to study about 140ish kanji, great practice for grammar and vocabulary. Good work book for learning intermediate Japanese.

easy to understand with good explanations

I am a freshman at UCSD and this book came in great condition and is very helpful for Japanese courses.

Great book and quality
