Best Sellers Rank: #1,470,058 in Books (See Top 100 in Books) #53 in [Books > Travel > Asia > Laos](#) #1070 in [Books > Travel > Asia > Southeast](#)

Customer Reviews

I was traveling through Laos and thought this guidebook was pretty spot on especially with the "warning" about being met at the docks by guesthouse people when you get off the boat :) The guidebook is layed out nicely and I had no problem using the maps and the places where I dined were listed in the book. I personally would like to recommend the guesthouse I stayed at in Luang Prabang (not listed) it was amazing maybe they'll put it in their next addition. I was traveling for a month through Thailand, Laos and Cambodia. I had problems with the Thailand book (see that review) so I was wary about using this book in Laos but my fears were put aside. There is good advice, accuratacy about encounters (which were positive for me) and good descriptions about the places I saw, roads etc. This is a good and reliable guidebook.

Laos is not a heavily traveled place but these folks at Lonely Planet as always provide a very good travel companion. When they tell you something you can take it to the Bank, it is correct. I was one of the first tourist into Cambodia after the war and these guys at Lonely Planet were ahead of me giving good helpful advice. Walk in Book Stores often are out of a particular "Lonely Planet" guide but I can always count on having the most current issue in their "In House" stock, and a prompt shipment. L

I typically get the Lonely Planet books whenever I travel and the Laos book was no different. I really appreciated how Lonely Planet included a lot about the history of the country and the recommendations to visit. The maps are well done and on par.

Remote Country in South East Asia, devastated by "collateral bombing raids during Vietnam War, still in recovery. Easy to read, highly recommend it.

Good & essential book for travellers .

Lonely Planet books are the best travel books around. I like the history mixed with the travel/tourist info. This one is no exception!

Seems like a good book for Laos, unfortunately it doesn't have too much info on the cities we are going to.

The receiver of the book and I both love the lonely planet series travel books. They're very informative and never a bad purchase!
