Age Range: 1 - 3 years

Grade Level: Preschool and up

Customer Reviews

Roger Priddy's passion for educating children through fun, informative and engaging books has led him to create some of publishing's most enduring and successful non-fiction early learning books. Roger lives in London and has three children, who have been the inspiration behind many of his best publishing ideas.

"First 100 Words" by Roger Priddy was bought as a gift for my sons' first birthday and it is the perfect book for a one year old. It is quite a basic book and the sort of board book most children will have at some stage in their life. It definitely deserves mention, as my son chooses it from his library nearly every day. Previous reviews have indicated some confusion over the book size. This version of the book is pretty small (it's 5 x 6 inches; an over-sized ABC/colors version can be found here), and it can withstand rough little hands as it is a board book. Each brightly

colored page shows various photographs alongside the corresponding word. I like that it uses photographs instead of illustrations (animals wearing clothes, etc.). The pages are split into themes of things your LO will probably recognize from everyday life, such as clothes, food, things that go and so on. My son has had this book for a couple of months now and it's been a huge hit with him. He will sit on the floor and look through it himself. Together, we look at the pages and I point to each picture and say the word. I've started him with some Tiny Tutor videos to supplement our lessons while I do chores around the house. We do this most days and the repetition seems to be paying off, as he seems to recognize a new thing in the book every day. Although rather basic on the face of it, I am really delighted with this book and wish we'd had it sooner. It is selling for under \$5 on which I think is a real bargain. I've noticed there are some similar titles, such as First 100 Animals and First 100 Numbers Colors Shapes. I will be looking to purchase these in the future too. It seems the simple things really are the best sometimes. Highly recommended!

This book is perfect for the diaper bag! It's small, and my 13-month old can enjoy it whether or not anyone is available to read it to her. It has kept her entertained through many restaurant mealtimes and car rides. You'll be amazed how many words your child knows when you ask her to point to specific pictures throughout the book!

I usually don't write reviews but I felt I needed to recommend this book. I have a 14 month old boy and this has been his favorite book since he was seven months old. He has tons of books but none of them hold his attention like this one. I put it in his crib when he goes down for a nap and I spy on him with the monitor- he holds it and looks at the pictures until he falls asleep. Now that he's older he points at certain pictures and babbles about them. I think it's the best book we have at this stage.

probably will be buying another one because these books are easy to rip. son had it for a good 7 months before he got a little rough with it and now is pulling out his favorite pages (the entire book!)

I bought this book for my son, we are growing and learning. I really like that the book is small for him to be able to handle, the pages are thick and sturdy for him to be able to turn without ripping them, and the pages are broke down into categories. There are real pictures to show what each word is I really liked this because it is real world association for him while we are learning all these new words. My son loves reading and I love to read him things that are really teaching him. This book is

well worth the price I have paid for it and will be in my house for a long time.

This is a wonderful learning tool and keeps the little one's attention. We bought this for our baby's first plane ride and kept her busy for about 45 minutes! I will call that a victory. :)

Received Book, Securely Packaged. Love The Colorful Pictures. My Grandson Enjoys Turning, The Tear Resistant Pages. Very Happy With Book.

I love this book. The words and picture are nice, big and bright.. My baby loves it! I love the material that is used to make the book..
