Nature Study & Outdoor Science Journal: The Thinking Tree Presents: A Creative Book Of Observation, Drawing, Coloring, Writing & Discovery Through Nature - Fun-Schooling For All Ages

Synopsis

Nature Study & Outdoor Science Journal A Creative Book of Observation, Drawing, Poetry, Coloring, Writing & Discovery through Nature More than 180 Lessons! SALE! Normal Price \$32.50
Nature Drawing Lessons! Illustrations in Pen & Ink & Pencil Beautiful illustrations by Sarah Janisse Brown and Vanya Romanenko
How to Use this book: 1. Take this Journal and a few pencils outside with you. 2. Look for something inspiring, interesting, or familiar to draw every day. 3. Some days you may want to write a poem or story about nature, animals, the weather, or your feelings. 4. You don't need to use the pages in order, use the page that you want to use each day. Things to think about when you go outside: 1. Think about how each season brings change. 2. Think about how the sky and clouds look. 3. Think about how the weather feels. 4. Think about the sounds you hear in nature. 5. Think about the animals that live near you. 6. Think about the habitats of each living creature. 7. Think about the way nature looks at different times of day. 8. Think about the way your yard changes every month. 9. Think about how to draw every detail. 10. Think about how you can do your best to appreciate, protect, and respect the environment around you. 100 pages for art, research and observation. For Homeschooling Families who enjoy Charlotte Mason Methods, Delight Directed Learning or Fun-Schooling. Customer Reviews

While we own a number of Thinking Tree journals and books for homeschooling, this is the first one

that I picked up just for me. I absolutely love it and starting working in it the day I received it. There is plenty of room for observations in addition to photos and drawings. I thought the poetry excerpts in the book were a nice touch as well. I would recommend this for homeschoolers and for folks interested in delving into nature journaling.

We have 2 of these and just love them! We enjoy going outside, picnic style, and enjoying nature. This journal has been a great place to record what we see in nature. It has just enough structure to it to keep us on track, but allows my kids to be creative. We use field guides, coloring pencils and such alongside it for a nature study approach to science.

So beautiful! Ideal for any child who love nature or for parents who would like their child to become more attached to nature. The pages and prompts are wonderful. My favorite of all the fun schooling journals and hope to see more like this, this one is more structured than the others in a completely non-structured way. 10/10!

This is my favorite journal so far by The Thinking Tree! Can't wait to do this as a family! Nature Study in so many ways! Easy, affordable, and fun!

This book is so outside the box and that is why I love it! If you are looking for an cool way to study Nature then this is the book for you. You will not be displeased. Your kiddos will love it!

Great journal with pages laid out so you can flip through to find what sort of page you want. Goes great with our nature studies!

Just beautiful. I wish I had ordered a copy for myself also. Just right for days at the park.

What a lovely Science and Nature journal to portfolio! Truly a keepsake!
