Great book my daughter loved it!

Girlfriend loves it!

Best one-volume book I've found on signing. Many pictures w/ details on actually making the sign. The dictionary format is invaluable. The book is so good, I've left my copy at work-I'm a licensed psychiatric nurse working with autism-spectrum, developmentally disabled adults (I would identify my employer, but even THAT might be a HIPAA violation). At any rate, I may buy another copy for my home library since I can use an ASL reference work, and THIS copy is out at work.

I have learned so much!

Great book. Surprisingly light in weight. Great for learning individual words, not sentences.

Was a gift person loved

A good reference when not using ASL apps.

Good book Straight forward. Fairly easy to follow pictures and text. My only disappointment is that the book doesn't cover the basic colors and that is something I was hoping to learn.
