# Nurses Making Policy: From Bedside To Boardroom

## Synopsis

There is a plethora of policy books on the market, but none illustrate the steps in the policy process better than this one. The high caliber editors and contributors, all of whom have been involved in policy work, bring years of experience to illustrate the key points... This publication is timely as the shift in healthcare requires input from all health professionals, but especially nurses who are at the frontline of healthcare change and delivery. This outstanding resource will help motivate many more nurses to get involved in the policy process... Weighted Numerical Score: 93 - 4 Stars!--Doody's Medical Reviews Written by those in the know-- exceptional nurse leaders in practice, education, and politics-- this is a practical, "how-to" book written to help advanced students and nurse leaders develop health policy skills to advocate for patients from the bedside to the larger political arena. Co-published with the American Nurses Association (ANA), the book examines the pivotal role of nurses' involvement in health policy and describes the requisite steps for facilitating policy change-- from understanding the political system through activating a plan and beyond. It features the voices of a wide variety of nurse leaders who discuss policy work both locally and nationally through descriptive case histories. The book discusses those qualities and skill sets that are needed for advocacy at the bedside and other arenas where health policy is determined. It examines the political system and opportunities for nurse involvement, and clarifies the process of identifying issues that need a policy solution. Because citing research is an integral component of health policy solutions, the book describes how research can be used to strengthen policy initiatives. The book guides the reader step by step through the process of creating a work plan and describes the resources needed to accomplish policy change. Activating an action plan and strategies for working with the media are covered, along with the process of taking a leadership role, evaluating outcomes, using policy to eliminate health inequities, and maintaining and expanding momentum. Woven throughout the book are the major themes of ethics, leadership, safety, and the quest for quality of care. The text provides information and perspectives relevant to the American Association of Colleges of Nursing (AACN) doctor of nursing practice (DNP) Essentials, and includes multimedia electronic links to resources (podcasts, online articles, social network resources, and key political websites) that promote policy research and leadership development. KEY FEATURES: Delineates the steps to becoming a policy advocate in organizational, educational, and political settings Written by noted nurse leaders who describe policy work locally and nationally Presents competencies for nursing policy work derived from the AACN DNP Essentials Focuses throughout on themes of ethics, leadership, quality, and safety Facilitates web use for policy research and development Ancillary materials from the editors are

available

## Customer Reviews

Rebecca M. Patton, MSN, RN, CNOR, FAAN, is the immediate past, two-term President of the American Nurses Association (2006-2010), and current Atkinson Visiting Instructor in Perioperative Nursing at Francis Payne Bolton School of Nursing, Case Western Reserve University, USA -where she is gaining her DNP with mentor Joyce Fitzpatrick. Margarete L. Zalon, PhD, RN, ACNS-BC, FAAN, is Professor, University of Scranton, Department of Nursing, Scranton, PA, USA; Adult Health Clinical Nurse Specialist, American Nurses Credentialing Center; and immediate past President-Chair, American Nurses Foundation, where she also served as Director at Large (2002-2004). , PhD, RN-BC, CNS, is Professor Emeritus, Nursing, Kent State University, USA and an Honorary Senior Fellow, University of Central Queensland, Australia. Recently, she was Director, Gerontological Clinical Nurse Specialist Program, Kent State University, USA and Director, Nursing Research, Robinson Memorial Hospital, Ohio, USA.

Ms. Payton's continued support and advocacy for nursing and safe, quality, efficient patient care is exhibited throughout the book. This book is different as it compares and demonstrates the nursing problem solving process and nursing theory to nursing advocacy. As a DNP student, this book's comparison to our every day nursing duties applied to nursing advocacy and policy paints a clear picture for all nurses to understand policy and politics and our role in advocacy. The best book I've

read in years of buying books for school and research.

Former ANA President has truly captured the essence of policy-making and policy-influence. In this time of great political turmoil, this is an important contribution to the discipline . . . and beyond.

Met the intent. Very well written and relevant to today's healthcare environment. Although this was purchased specifically as a course text, I highly recommend it for practicing nurses.

Received item as expected. Quick shipping.

Meets expectations

the book is good quality

Excellent

Everything great, except for a bash in the spine of the book.
